MEASLES AT CALYPSO

During the Christmas holidays measles spread about our community and kept school from opening until January 17, 1938. The disease seemed to spread more in the first and second grades. In many cases of the measles complications are still set in and many students are still out of school. They all have our deepest sympathy and best wishes for a speedy recovery. A few cases of mumps and chickenpox have been reported in this community. —Clara Byrd.
