Election Quiet

All County

Officers Returned

All Democratic officers were returned to office, with the exception of a Justice of the Peace in Rose Hill Township. The election of this justice showed that Duplin though avowedly Democratic, still approved of the two-party system, at least in spots. The Justice of the Peace was Stedman Matthis.

Officers who were re-elected to office were: D. S. Williamson, sheriff; R. V. Wels, clerk of court; R. L. West, county attorney, his term is now being served by N. B. Boney; R. D. Johnson; State Senator, C. E. Quinn, House of Representatives, and Constables and Justices of the Peace. Official figures will be printed next week.

If You own more than

5 Tires you're out of luck

"Passenger car owners showing on their applications that they still own more than five tires per car will not be issued future mileage ration books, said Mr. Morrison. "They will be told they must get rid of these tires first."

"When he does apply he will have to present proof that he has disposed of the excess tires he reported on his application form."

A receipt showing that he has turned them over to the Railway Express Agency will be acceptable as such proof. Or the applicant may show that he has turned in unserviceable tires for scrap.

"But it's a great deal simpler and easier for all concerned to sell the tires in advance" Mr. Morrison pointed out.

All excess tires, even scrap tires, must be disposed of. Under the Government's Idle Tire Purchase Plan, the local office of the Railway Express Agency will collect all serviceable tires, and leave a receipt. The Government will send a check later covering the price of the tire or tires. Tires beyond repair should be disposed of through a local scrap dealer or salvage committee.

Sell Excess Tires

Before Dec. 12 if

You Want Gas

Duplin County autolists must dispose of any tires they own in excess of the permissible five per car before December 12 in order to retain their right to hold mileage, H. M. Morrison, chairman of the local War Price and Rationing Board, declared today.

"We urgently request that these excess tires be turned over to the Government at once," said Mr. Morrison. "But in any event owners must get rid of them by December 12. Any vehicle operator without a tire inspection record on that date will be in violation of the mileage regulations."

Tire inspection records will not be granted car owners who have listed more than five tires on the application form to which the record is attached. In the Eastern Area, where rationing has been in effect since last July, these forms are to be picked up by autolists, filed out and mailed to local War Price and Rationing Boards.

Car owners who listed more than five tires per car on their application form will be required to show proof that those tires have been disposed of under the Government's Idle Tire Plan. The tire inspection record will be returned to the applicant.

A receipt showing that he has turned them over to the Railway Express Agency will be acceptable as such proof. Or the applicant may show that he has turned in unserviceable tires for scrap.

All excess tires, even scrap tires, must be disposed of. Under the Government's Idle Tire Purchase Plan, the local office of the Railway Express Agency will collect all serviceable tires and leave a receipt. Truck, Bus, Taxis

Must Have Certificates

Of War Necessity

Operators of trucks, buses and taxis must have their Certificates

of War Necessity before applying to the local War Price and Rationing Board for their mileage ration, Mr. H. N. Morrison chairman of the board, declared today.

"The Certificates of War Necessity issued by the Office of Defense Transportation, form the basis of our issuance of transportation to these commercial vehicles," said Mr. Morrison. "When applicants come to the board they must bring with them these certificates, together with properly executed application for a mileage ration."

Each war necessity certificate states the number of miles the vehicle for which the certificate is issued will be allowed to travel during a three-month period. The certificate also states the number of gallons of gasoline needed to cover this mileage.

The OPA rationing board will determine the amount of transportation to be issued for the vehicle on the basis of the mileage allowed on the certificate. In no case is the board permitted to allow more gasoline than is stipulated on the certificate.
