**Meat to be Rationed at Average of Two Pounds Weekly Starting on March 29**  
 Washington, March 12 — Beef, pork, lamb and mutton will be rationed at an average of about two pounds a week for home consumption starting Monday, March 29. Rationing of butter, cheese, other edible fats and oils and canned fish will start at the same time.  
 Through this long-expected action, the government hopes to even up the civilian supplies, which have been curtailed by huge diversions to the armed forces and lend-lease. Local shortages are expected to disappear quickly.  
 Harold B. Rowe, in charge of food rationing, at the Office of Price Administration, said the allotments will be proportionately more generous than the limits put

earlier this month on canned, frozen and dry fruits and vegetables. "The meat ration," he said, "probably will be more than many low income families will be able to afford, although less than the average purchases of middle or high income families."  
 In the light of existing rationing programs, the new plan will bring restrictions to the largest part of the typical American diet. Still unrationed on the basis of today's announcement, will be milk, cereals, fresh fruits and vegetables, bakery goods and numerous specialties such as relishes.  
 From the customer viewpoint, the unrationed basis of food will be the restaurant or other public eating place. These places will be rationed on their supplies, but will not collect coupons.  
**Mix Lemon Juice AT HOME TO RELIEVE RHEUMATIC PAINS**  
 Money Back—If This Recipe Fails  
 Good news travels fast—many of the thousands of folks who now take lemon juice for rheumatic pain—have found that by adding two tablespoons of Aileru to one tablespoonful of lemon juice in a glass of water, they get faster relief for the aches and pains caused by rheumatism, lumbago. It's no surprise either, for Aileru is a 15 year old formula to relieve rheumatic aches and pains. In fact—if it does not help—your money back. What could be fairer? Get Aileru today at any live drugist. Only 25 cents—Do it Now.

## Sabotage in your Garage — Arrest ACID!

THE ENEMY'S forced you to rationing. Now he'd make your engine the victim of vicious acid. The mere stopping of your engine always leaves it stuffed with vile fumes and dilute acids—the ever-present products of combustion. And there they stay.  
 Formerly these sources of corrosion were kept mostly cleared out, because you drove frequently and fast. But now in saving coupons and tires you may not soon use your car again, and you don't make those long speedy runs that maintained normal engine heat a good while, to help drive acids off. That's why harmful leftovers in the cylinders nowadays are serious. But you can combat their dirty work by keeping your engine internally OIL-PLATED.  
 How? Just change to Conoco N<sup>th</sup> motor oil this Spring. It's made under U. S. Patent No. 1,944,941, covering an added modern synthetic in Conoco N<sup>th</sup>, whose proved purpose is to give inner engine parts their preservative layer of OIL-PLATING. And like the more familiar platings that arrest the attacks of mere water, this OIL-PLATING powerfully tends to arrest acid action...inner corrosion of precious parts that often can't be promptly replaced today. Yet you pay only an everyday price for Conoco N<sup>th</sup>. Change for Spring at Your Mileage Merchant's Conoco station. Continental Oil Company

# JEFFERSON STANDARD 1942 PERFORMANCE

## HIGHLIGHTS FROM PRESIDENT PRICE'S 1942 REPORT—AND WHAT THEY MEAN TO OUR POLICYHOLDERS

- INTEREST EARNING MAINTAINED**—The Company earned 5% on invested assets during the past year. Jefferson Standard has consistently maintained leadership in this field.
- INTEREST PAYMENT RATE MAINTAINED**—Paid 5% interest in 1942 on policy proceeds held in trust for policyholders and beneficiaries. This rate has been paid continuously since the Company's organization in 1907—another reason why Jefferson Standard POLICY DOLLARS ARE LARGER!
- SURPLUS FUNDS INCREASED**—Surplus, capital and contingency reserves total \$10,000,000—a new high mark in additional funds for policyholders' protection.
- ASSETS AGAIN INCREASED**—Assets increased \$10,251,131 during 1942 and now total \$115,016,016. These assets, highest in the Company's 35-year history, represent a healthy condition and growing strength.
- SALES HIGH**—Sales of new life insurance during 1942 totaled \$46,000,000—30% of this on those already insured in the Company.
- INSURANCE IN FORCE**—\$470,000,000 Jefferson Standard life insurance now owned by 190,000 policyholders—a \$20,000,000 increase.
- BENEFITS PAID**—Policy benefits paid by Jefferson Standard in 1942 amounted to \$6,170,804. Since organization in 1907, the Company has paid \$131,465,865 to policyholders and beneficiaries.

## Jefferson Standard Dollars ARE FIGHTING IN THE WAR

Every time you pay your premium you are not only buying the security and protection of life insurance for yourself and your family, but you are also contributing to the war effort, and the stability of our national economy. Your life insurance dollars, invested in War Bonds and Industry, help to finance war production. They also help to fight inflation because they are not competing for scarce consumer goods.

As a contribution to the war effort, life insurance underwriters sold War Bonds in 1942 totaling over 2½ billion dollars.

## Jefferson Standard Agents are Equipped to Give You Service Geared to Wartime Needs

Under current wartime conditions a sound life insurance program is even more important than before. Jefferson Standard agents are trained life underwriters—each well equipped to give you wise counsel and timely information that will be helpful in planning your life insurance program. Consult our local agent the next time you are in the market for Life Insurance.
