They are fighting for **"OUR LAND"**

"They" are our boys in fighting clothes, Mr. Farmer. Their implements of war are the ack-ack guns they man, the bayonets they aim at the enemy. And you are one of them, Mr. Farmer: Your overalls, your denim shirt, your tough shoes and sun-shading hat are your fighting clothes. Your plow, and tractor, rake and hoe, are your implements of war, aimed just as directly at the enemy. We know.....the whole nation knows how many problems you have to face: but you can cope with them with steadfastness of spirit when you compare them with the sacrifice, obstacles and vicious challengers with which our boys have to grapple! Together, they and you are fighting for our land. The fighting men on foreign soil: you are on the very land those stalwarts are embattled to protect from fascist tyranny. In wartime, food is ammunition. In wartime, food is the wherewithal every soldier, sailor, flier—and producing civilian must have, in order to carry on the fight at all! The nation looks to you.....in fact the United Nations and the liberty loving people of occupied lands look to you—to do your utmost in the name of freedom.
