L. Y. BALLENTINE

Varina, Sept. 1.—State Senator L. Y. (Bog) Ballentine, Wake County farmer and dairyman, today announced his candidacy for lieutenant governor in the Democratic primary next spring.

"I am a candidate for the office of lieutenant governor of North Carolina, subject to the Democratic primary," said Ballentine. "It is entirely too early to begin an active campaign. However, I feel the people are entitled to know that I am a candidate. At the proper time, I hope to visit all sections of the State and see as many of the people as possible."

"In announcing my candidacy, I pledge all that I have in ability, capacity for service, and knowledge of public problems. In support of this pledge, I submit my record and experience as a member of the Wake County Board of Commissioners for eight years, as a member of the State Board of Agriculture, and a member of the State Senate in four regular and five special sessions."

SWEET POTATOES

To be eligible for support prices on cured sweet potatoes, growers must pack them in standard crates, baskets or hampers and offer in carloads or lots. Every effort should be made to sell them through normal channels.

The World's War-Free Frontier!

... be ready to drive right over

No fierce border forts or haughty garrisons separate the U.S. and Canada, where peace-loving good neighbors welcome you. But there's a fight in the fish up there. "When the lights go on again, all over the world," you can steer for the Canadian Rockies or quaint Quebec, without even a passport. You'll need a car, of course, but re-designing and re-tooling for new cars will take long months. So for prompt recreation after hard-earned Victory you'll need your present car!

But note: Rationed mileage that might seem to conserve your car now, may actually be destructive, because it encourages the inroads of engine acid!

You don't want that, and that's why to have your engine OIL-FLATED by changing to Conoco Nth motor oil. It's popular.

priced but includes the modern synthetic whose strong "magnet-like" force attaches OIL-FLATING and maintains it—even for days—on inner engine surfaces, sort of "walling them off" from corrosive acid.

Always produced by combustion, this acid was little worry when constant driving kept the heat on it. Yet now, despite aggravated conditions, acid can be still less worry!—because you can OIL-FLATE with Nth today, for your engine's future.
