Flyers of the U. S. Army's Air Transport Command, shown in March of Time's, "Airways to Peace," fly key personnel and supplies to distant outposts and front lines. They are seen receiving sheepskin coats for protection against cold along with first aid kits for steaming jungles.

Huge ships of the U. S. Army's Air Transport Command shown in March of Time's "Airways to Peace," insure the swift arrival not only of troops or technicians, but of thousands of critical items of equipment needed to keep bombers or fighters in the air in distant war zones.

"Briefing" or thorough preparation for the flight ahead, is but one safety measure of the U. S. Army's Air Transport Command shown in March of Time's "Airways to Peace." Information gathered in previous flights is passed on to the next pilots to fly the course.

He Goes in First

THIS MODERN-STYLE British Naval officer's duties include during night raids on enemy-held coasts. He is in charge of British Naval Beach Parties, one of whose jobs is to land ahead of invasion troops, wade ashore with arms linked to discover any mines or underwater traps, then signpost the beaches for the troops to follow. It is little wonder that he bristles with firearms. The picture was taken during preparations for the invasion of Sicily.

Here's what YOU must do to Back the Attack

NOW, as America goes all out for the INVASION - your dollars must join the fight, too! For the very least you can do for your country - and for your loved ones doing the fighting - is to invest in MORE War Bonds in September. Think of Jim fighting with Eisenhower... or Bill with MacArthur in the Solomons... or Bob up in Kiska. They've given their pledge to fight - and die if need be - for their country. They're ready to go all the way. And we at home must see them through all the way, too! That means every individual in the country who earns a wage or draws an income or has accumulated funds must invest in at least one EXTRA \$100 War Bond if he can possibly do so. Those who can, must invest more. This in addition to your regular War Bond subscription. Yes, the least you can do for your men in service is to do MORE in September. MORE in the safest securities in the world - U. S. Government War Bonds. But do it now - it's for the INVASION!
