# OPA LIFTS RATIONING ON USED FARM TIRES

L. Grady of Kenansville township.

The Raleigh OPA Wednesday announced that all used tractor and farm-implement tires will be removed from rationing on Oct. 2. The action, District Director Theodore S. Johnson sald, is being

taken to encourage the full use of present supplies of farm tires in vital food production. Used tires heretofore have been available only with a rationing certificate, and farmers who obtained certificates preferred, as a rule, to purchase new tires rather than used tires. As a result, the movement of used farm tires has

been insignificant, Johnson said,

but the new ruling is expected to expedite the moving of the sup-

plies of used tires into service.

The traditional greeting on this day is: "May you be inscribed in the Book of Life." This greeting has a special significance this year for all of the members of the armed forces and for thousands who are still under the heel of the oppressor. The Shofor, or ram's horn, which is sounded in the synagogue on this festival, is a call to faith in the ultimate victory of righteousness. The New Year ushers in the "10 days of penitence" which culminate in the Day of Atonement on Yom Kippur, 10 days later. This period is marked by prayer, repentence, and self-examination on the part of every individual.
