 A Democratic Journal devoted to the material, educational, economic and agricultural interests of Duplin County.

PULPWOOD PRICES WON'T RISE

The O P A has flatly denied rumors that ceiling prices on pulpwood will be raised. Present prices are adequate, the group found, and any increase allowed at this time would merely contribute another factor to the inflationary trend.

Many farmers and woodland owners have found a profitable

second crop in their timber land and are busy harvesting it. Others have been holding back in the belief that prices would rise. OPA now says that they will not; bad weather will hamper wood cutting in a few months. So now is the time to cut pulpwood. There is nothing to be gained by delay, but everything to be gained by action today.

MILK ORDINANCE PASSED

At a meeting of the Duplin County Board of Health on Oct. 4, 1948, the U. S. Public Health Service Standard Milk Ordinance was unanimously adopted. This ordinance is to go in effect immediately.

This ordinance effects those people who are selling or reselling milk or milk products and, among other things, required that the milk be properly labeled according to grade; that each producer obtain from the health officer; that all cows producing milk for sale to the public be tuberculin tested and Bang's disease tested by a licensed veterinarian and that the certificates be filed with the health officer; that all milk handlers possess a health certificate; that all milk or milk products offered for sale to the public be handled only in standard bottles or containers; that milk be kept at a temperature of 50 degrees or be-

low before being sold from any establishment serving or selling milk.

The ordinance also provides for the periodic inspection and grading of dairies and pasteurization plants.

The maximum penalty for violation of any part of this ordinance was set at 30 days imprisonment or \$50 fine or both.

Miss Powell Winner 4-H Dress Revue

Miss Marlene Powell of the B. F. Grady 4-H Club was chosen the winner at the County Dress Revue held October 1st at the County Council Meeting of the Home Demonstration clubs in Kenansville. She wore a dusty rose dress, which she had made, with brown accessories. Miss Powell will enter the District Dress Revue to be

held in Elizabethtown, October 15. Rebecca Thomas of Beulaville 4-H club won second place. Others participating were, Lois Grady and Grace Baker from Kenansville 4-H club; Jane Bostic and Mattie Frances Kennedy from Beulaville 4-H club.

Doris Bostic acted as announcer. Susie Lee Williamson was dressed as the old fashion girl, and Elsie Green as the modern flapper. Others who represented appropriateness as to type and occasion were, Carolyn Williams, Janet Boney, Jean Tyndall and Shirley Tyndall all from the Kenansville 4-H club.

Judges were Miss Verna Stanton, Southeastern District Agent, Miss Martha Fisher, Home Economics Instructor of the Kenansville school and Mrs. Edgar Wells, Secretary of the County Council of Teachey.

LOCAL P. T. A.

MET MONDAY

The October meeting of the P. T. A. was held in the school auditorium Monday October 4, at 3:30 P.M.

Devotional was led by Mrs. L. F. Weeks and Mr. Carlton.

A report from the Lunch Room showed a balance of \$68.21.

Members of the Association voted to buy more lunch room equipment with P. T. A. funds.

A rising vote of thanks was given to the lunch room ladies for their splendid work this year.

The following were appointed to serve for the 1948-49 school year: Mrs. G. V. Gooding, Mrs. E. A. Newton, Miss Alice Hill Reeves, Music, Miss Edna Earle Edgerton, Publicity, Miss Mildred Pate.

The association agreed for the school to sponsor a Halloween Carnival Saturday night, October 30, at the school building.

Since May 19, a profit of \$406.93, has been made on drinks sold at the gymnasium on Saturday nights.

A balance of \$397.16 was reported in the treasury.

Dentist Builds Modern Office Building At Pink Hill

Dr. H. A. Edwards, prominent Pink Hill dentist, has just completed and occupied his modern office building located in the edge of Pink Hill on the Kinston road.

The structure, sitting back some 75 feet from the highway, located on a curve makes a picturesque site. It is made of white stucco, one story. The white reception room faces the highway and the colored reception room faces a side entrance drive. Besides the reception rooms, Dr. Edwards has his private office, laboratory room and dental rooms for white and colored. The attractiveness of the place tend to quiet the nerves of his victims as they sit in the chair.

COMPLETE GAS

RATION COUPON

INSTRUCTIONS

Raleigh, Oct. 5 Graphic instructions showing motorists how to endorse their gasoline ration coupons were released today by the Raleigh O P A.

Motorists are advised that they must endorse every coupon in their ration books immediately. They are not to wait until they buy gas before endorsing their coupons.

Holders of A, B, C, D, or T books are to write their license number and State of registration on face of all coupons. Holders of E or R books write

their name and address on the face of all coupons.

Holders of interchangeable book coupons for official or fleet vehicles write official or fleet designation and city and state of main office. If the commercial vehicle does not operate under a fleet designation, the number of the Certificate of War Necessity is to be written on the coupons.

Endorsement of coupons has a twofold purpose:

First, it protects consumers against use of their coupons by others in cases of theft or loss.

Second, it enables the Government to locate criminals who have been trafficking in illegal gasoline. By checking back the ownership of gas coupons that had been handled by suspected gas stations, the Government can determine whether a station is operating illegally or legally.

B. F. G. — P. T. A. TO

HOLD 2nd MEET

The B. F. Grady will hold its 2nd, meeting of the year on Mon-

day evening Oct. 11th in the school auditorium.

All are invited to attend, as a new ruling permits visitors to be counted for the grade who invites them, if they have no children in school for which they must count.

NEW "A" BOOKS

Be sure to have your tires inspected. Go to your Filling Station and ask for application to fill out for your new gasoline "A" Book. Fill out application, attach covers of your old book with tire inspection sheet and mail to your Local Board. New "A" Book will be mailed to you.

War Book No. 4 will be issued the last week in October, at your schoolhouse. Be ready with War Book No. 3 and take it with you when you register for Book No. 4, as all applicants must present No. 3 book to register.

Everyone is urged to make application during the registration period, as the number of books issued by our board will be considered as the population served by our board.

Overweight Motor Oil Costs You Dear

Be sure of changing to your Lightest possible grade —by having your engine Winter OIL-PLATED

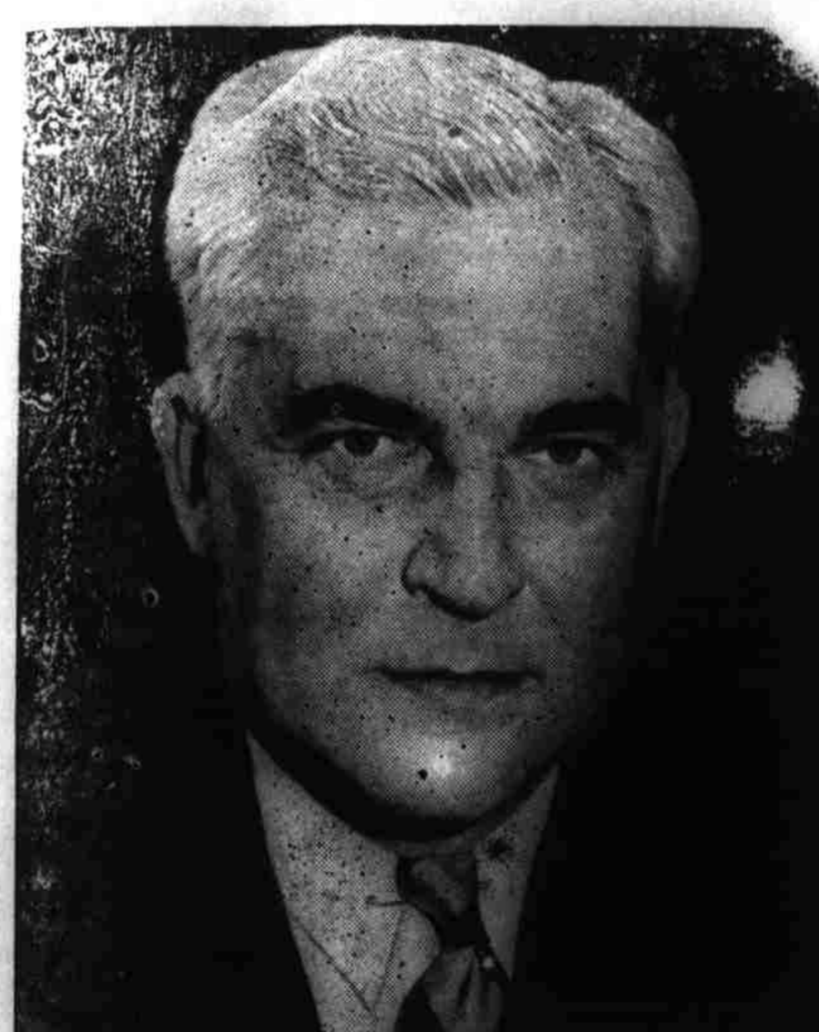

Sure as you live... sure as your car must live... you'll want a change to the lightest motor oil that your engine can use this Winter of War.

Waiting for a "real cold day" before draining overweight oil that drags when it chills, is like waiting for your battery's doom. This drag of overweight oil wastes gasoline, too. And even worse is the big chance of internal damage because overweight oil won't squirt and spray into friction zones of your engine quickly. For the sake of your battery, your gasoline coupons, and your engine, change to your lightest practical grade of oil.

You can quit wondering whether "one grade heavier might be on the safe side." You can be as safe as possible with your engine OIL-PLATED by even your lightest suitable grade of Conoco Nth motor oil. Its load-carrying capacity is doubled by synthetic means. And this also creates "magnet-like" action to keep lubricant closely fastened to inner engine surfaces, in the form of OIL-PLATING. Even the lightest grade of Conoco Nth oil will give your engine the high protection of OIL-PLATING. Ask Your Mileage Merchant today to recommend the grade suitable for your car. Continental Oil Company

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops. Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids. But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

"Cutting pulpwood is essential war work"

says Paul V. McNutt, Chairman of the War Manpower Commission

PULPWOOD is an essential war material, used among other things for making rayon parachutes, shipping containers and smokeless powder. Its many wartime uses have created a shortage which is rapidly becoming acute. With these conditions in mind, the War Manpower Commission has recently classified pulpwood cutting and production of pulp as essential war occupations.

is wielding his axe and saw in the same struggle and to the same end that other men are wielding bayonets and machine guns.

"I know that the men who work in the forests and pulp mills and the farmers who cut pulpwood from their woodlots are just as patriotic and loyal as any other group of Americans. Now that they realize the importance of their part in the war, I am sure they will respond with the extra hours, extra days and extra effort that is the only possible answer to this dangerous shortage."

Approved by War Manpower Commission

Sponsored by NORTH CAROLINA PULP Co. PLYMOUTH, N. C.

Now is the time to cut or thin your timber while prices are high and pulpwood badly needed.

Consult your county agent for cutting.

Estimate how many cords you can cut. Then get in touch with our local dealer, or telephone, or write us for prices and specifications.
