peanuts in all areas. Hog prices hit the lowest level of the year at some points as values continued to drop until the support price was reached at Chicago. Tops closed in the southeastern area at \$12.75, Nashville and Richmond \$13.35, North Carolina buying stations \$13.15-13.30. The seasonal increase in hog marketing has resulted in a temporary glut in some markets and packing centers. In view of this situation all producers are warned to get in touch with their marketing agency before shipping their hogs and to make sure they can be handled.

Cattle prices throughout the South were steady on slaughter steers and heifers, but some markets reported weakness on lighter weights and cows. Receipts increased at most points. In the southeastern area common and medium steers and heifers brought \$8.50-11.50, Nashville \$9.25-11.50.

Egg and live poultry prices are strong at ceiling levels. Fresh eggs are very scarce throughout the South, with supplies being brought in from the Midwest to fill trade needs. Hens and fryers are plentiful and in good request. Light offerings of turkeys are finding a ready outlet.

Folks, you're doing a Swell Job

WE WANT to salute the people of this community on their fine response to the appeal for more pulpwood. Every boy in the service will be proud of the way the home folks are backing him up.

This present pulpwood drive is bringing results. It has brought in pulpwood from people who never cut any before. It has been a big help toward meeting the dangerous shortage that threatens our war effort.

The danger is far from over. It will take millions and millions of cords to win the war. There will never be enough to go around - not as long as the shooting lasts.

Can You Picture NORTH CAROLINA without Police?

Today, we all owe a tremendous debt of gratitude to men and women in the uniforms of Uncle Sam's fighting forces. They're on duty today at the four corners of the earth and on all the seven seas - protecting our lives and our way of life. And we mustn't overlook the splendid job that other men in the uniform of our police forces are doing. Their "zone of operation" may be North Carolina rather than North Africa, it may be the highway to the next town rather than the airways across the Pacific, but their job is fundamentally the same - protecting us and ours. We North Carolinians can indeed be proud of our police organizations - city, county or state. Most of us have few occasions to call upon the service of our police forces - but that in itself is a tribute to their efficiency. They're on the job day and night, whether we need them or not.

Some of us in the Greyhound organization, because of the nature of our work, have more frequent occasion to cooperate with the police than do many of our fellow citizens of North Carolina. For instance, we are in a position to see clearly how much the police of this community, as well as those of neighboring communities, have contributed to the safety and convenience of bus transportation. The aid these men have given in arranging the most practical and satisfactory routes through towns and cities is typical of their skillful handling of all traffic problems. Greyhound's most important job, as we see it, is to make near and good neighbors of all the communities that our buses serve in North Carolina - and we feel that the able cooperation of police forces throughout the State has made it possible for us to do this job with greater efficiency.
