Board Adopts Milk Standards

The State Board of Agriculture has adopted minimum Statewide standards for the production and sale of milk in North Carolina.

Slated to become effective on September 1, the regulations will serve as a minimum with regard to the State's milk supply - any county or municipality which want more stringent requirements may have them.

In addition the board also passed a regulation which will require vendors who use milk shake base in making milk shakes and similar drinks to post in a conspicuous place a placard bearing these words: "We use milk shake base in the making of milk shakes."

The milk shake regulation also prohibits the use of any artificial coloring in milk shake base, and requires milk shakes to contain not less than two percent butterfat. (Milk shake base is standard ice cream, running three per cent butterfat or less and 13 per cent

milk-solids-not fat.)
Enforcement of the new regulations remain with the local health officer.
