Kenansville

Ever since I came to Kenansville in 1935 I have been preaching that it is a good town for any kind of ess and a good town to live in. As I look back over the years and being approximately a son of Duplin any way, I have come to the conclusion that the people of the county are still embedded with much of that feeling handed down years ago that Duplin could have a town only on the railroad. That is the A. C. L. of course, The A & C has never been recognized as railroad but since I've been here it has served most of the folks in Kenansville, Beulaville, Pink Hill and the in-betweens with most of their coal, nearly all of their fertilizer and a large part of their heavy freight in spite of truck

We have one of the strongest insurance agencies in the county. None at all in 1935. And Monday night of this week the directors of the Mount Olive Building and Loan Association voted to include Kenansville, so now we have a new financial institution. The Kenans ville Production Credit Association is well entrenched.

They said a cafe couldn't pay here. But we have one of the best in the county.

C. E. Quinn sold out his general merchandising business to Paul Ingram and M. F. Allen. It's expanding rapidly

Bob Dail sold his drug store and now the manager Amos Brinson has one of the best in the county.

J. O. Stokes, representing Baugh's Fertilizer, has one of the largest, if not the largest, fertilizer businesses in Duplin county.

L. H. (Pete) Quinn, moved into town and built a large attractive store and is rapidly filling it full of merchandise and selling plenty. In 1935 we hardly had a barber shop, now Hubert Brown's shop keeps two barbers busy.

Support TB Seal Sale Campaign

Mr. Lewis W. Outlaw, Seal Sale Chairman, for Duplin County T. B. Association is mailing letters to the various community leaders asking that they serve as a Publicity Committee for the 1947 Tuberculosis

The work of this committee will be to stress the importance, where-ever he or she may have the opportunity of the necessity of support-ing the 1947 TB Seal Sale.

Last year 1300 persons in North

Carolina died of TB. Eleven of this number were from Duplin County With a proper case-finding program some of these cases might have been found before they were too far advanced for cure.

Mr. Outlaw hopes that every one asked will accept this opportunity to serve his or her community in this worthwhile cause, which being ably supported will enable Duplin County to carry on a much needed Case-Finding program. If found in time tuberculosis can be cured.

Insured mortgage loans are also available through the FHA for the purchase, enlargement and development of family-type farms by tenants, sharecroppers, and farin laborers who are eligible for the services of the agency.. All loans will be made on the basis of appraised normal values. The borrower pays 10% of the normal value, and a lending institution, such as a bank or insurance agency, lends the remaining 90%. The Government insures the loans and FHA personnel make collections and otherwise service them.

Both direct and insured farm ownership loans bear 31/2 % interest and are repayable on a 40-year amortized basis.
