

### Thanksgiving Time At Oxford

As the Thanksgiving season approaches, autumnal colors begin to show themselves in the forest of oaks on the campus of the Oxford Orphanage and remind us that 308 boys and girls present that many

opportunities to benevolent men and women desirous of making wise and loving contributions in behalf of needy children. For 75 years the Orphanage has continuously been in the business of caring for, educating, and training orphaned children. In this three quarters of a century some 8,000 North Carolina boys and girls have been molded into good and useful citizenship, becoming important assets in the life of the state. These

graduates have entered into the various businesses, trades and professions. The records are impressive. While the Orphanage is wholly owned and operated by the Grand Lodge of Masons, no child is debarred from its benefits because of non-Masonic parentage. Scarcely 20 percent of the children in the Orphanage today have Masonic lineage. The question is never, who was the father or mother, but what

is the need of the child? This is the deciding factor, always. Special emphasis is this year being laid on the needs for more and larger gifts at Thanksgiving. In its long list of expense requirements the Orphanage has many "musts". The institution "must" provide shelter, clothing, food, recreation, heat, light, books, school supplies, health programs, athletic equipment, staff of trained workers, vocational training in several departments, laundry, repairs and upkeep of grounds, building and equipment, experienced case work for the big family of children. All these "musts" and many others have risen enormously in cost and this must be adequately balanced or the children will suffer from neglect. The history of a neglected child is never a happy one—neither for the child nor for the state. Always someone must pay. The Orphanages of the state are adding additional fervor to their appeals this season. This is a matter of logic and figures. There is no way out of it. They have got to

find the money. The majority of us waste money every day for things that serve no real purpose or give adequate return. This is a common experience for all of us. And we may be sure, however, that every dollar given

needy childhood yields compound interest and never ceases to work. Now, as you read this, is a fine time to make a donation. The sky is no limit! Look into the advantages of Aviation Cadet

Pilot training today. Full details at your nearest Recruiting Station. A moderate decline in hog prices through fall and early winter is likely as marketings of 1947 spring pigs reach their heaviest volume.

## BUILDING MATERIALS FOR SALE

- Windows - Wood Doors - Glass Doors - Frames
- Mouldings - Casing - Locks - Hinges - Nails - U. S.
- Gypsum: Sheetrock - Plaster - Limes - Gauging
- Plaster - Brixment - Cement - Sand - T. C. Pipe (all sizes) - Drain Tile - Flulining - Thimbles - Brick
- Concrete Pipe - Asphalt Shingles - Roll Roofing
- Pittsburgh Paints - Pumps - Screen Doors - Window Screens - Poultry Wire - Window Glass

### HOME OWNERS' QUESTION BOX

The white of an egg will remove chewing gum from anything, including hair, without leaving a trace. Gum also may be removed from clothing by placing a piece of ice on the clothside of the gum spot. When the gum freezes, it comes off easily.

Q. Is it possible to remove dents from furniture?  
A. Small dents often may be removed by placing a piece of blotting paper over the dent and applying heat from an iron. Heat and moisture tend to cause the wood

to swell and fill the dent. Incidentally, when a table has a mark marked by a hot dish, the "white" may be removed by camphor and oil. Put a few drops on the spot and let it stand for a few minutes. Then polish with a soft cloth.

Q. Is there any way to keep curtain rods from rusting?  
A. Yes. Try waxing the rods. They will slide more easily, too.

Q. How to you recommend cleaning paper lamp shades?  
A. Use skim milk. It does not penetrate the paper like water, so it slips over the surface, carrying the dirt with it. Be sure to dust the shade first with a clean cloth, and don't let the milk stand on the surface. Simply sponge the shade with a soft cloth dipped in milk.

Q. Do you recommend patching a leaky roof?  
A. If the roof is old, patching seldom pays, and in the act of getting on the roof to repair it new leaks are apt to be started. The only economical way to repair an old roof is to recover it. Use asphalt roofing, or some similar fire-resistant material, which will protect the home from chimney sparks or flying embers as well as the weather.

Q. In painting new wood, what kind of a prime coat do you suggest?  
A. It depends on the nature of the wood. Open and porous woods will absorb large quantities of oil, so the priming coat must contain enough oil to fill the wood without robbing the paint film. Resinous woods, on the other hand, require an excessive amount of turpentine to dissolve the gums and resins so that the paint may enter the pores.

# LANDAU AUCTION

Warsaw, N. C.

FRIDAY NOVEMBER 14 10:30 A. M.  
VALUABLE BUSINESS PROPERTY

Consisting of two 2-story BRICK BUILDINGS, fronting on Main Street, size of each 25 X 80 feet, with alley in back. Located in heart of town, making it ideal for Furniture, Appliances, Hardware or General Merchantile Business.
