The following remarks were made by Supt. O. P. Johnson, President of the Department of Superintendents of the South Eastern District of the North Carolina Education Association, in presenting a life membership in the N C E A. to T. T. Murphy.

The District meeting, at which thos honor was bestowed on Mr. Murphy, was held in Fayetteville on Friday, November 7, 1947;

T. T .Murphy, a native son of Pender County, elected Superintendent of Pender County Schools on July 29, 1903, the year in which I was born, and three months before he reached his 21st birthday. Mr. Murphy doing the work and receiving the tremendous salary of \$600. per year for his efforts, served in this capacity until July 1, 1906, when he resigned to complete his education at the University of North Carolina. After graduating from that institution, he taught for one year in Durham County. On July 9, 1909, the year I entered the first grade, he was again elect-

ed Superintendent of Pender County Schools, which position he has held continuously since that During the first years of this long period of faithful service he heard the cry of Aycock for a school house on every hillside in North Carolina. He has seen the school term extended from four months to nine months. He went through the period of holding teacher in-

stitutes and awarding teacher's certificates. For many years he visited his schools by means of horse and buggy. He was among the leaders of this section in the movement for the consolidation of our many schools through school bus transportation. He has seen magnificent rural schools replace the one teacher school. The first paved road in the rural areas of our section came during his incumbency. He took office in the days of readjustment after the Spanish-American War. When the wounds of the Civil War still hung heavily about our shoulders. Two World Wars and several depressions have added to the many problems which confronted him. During his term of office he has helped to lead us in the period of our greatest educational advancement

It has been my pleasure to witall of my primary and secondary to return later and teach in one of his schools; to serve as principal of one of his schools, and to serve as superintendent in a neighboring county. I believe that I am qualified to say that during this long period of excellent service he has given Pender County one of the best rural school systems in North Carolina that he has been true to the profession, and that he has given to us an excellent example of a truly great life of unselfish service to his people, and to his profession.

The Superintendents of the South Eastern District of the North Carolina Education Association, desiring to show their appreciation for such a life, present to our good friend, T. T. Murphy, this certificate of Life Membership in our State Teachers' Association. It is a small but sincere token of our professional esteem and deep personal regard.
