Methodist Churches Duplin Circuit

Murrell K. Glover, Pastor

The pastor is spending his visiting hours this week in Magnolia Community. He hopes to see every member of the Church there before next Sunday.

The pastor met with the Young People's group of Magnolia the past Monday night, July 18. For their next meeting, which will be Monday night, July 25, a period of recreation is planned. We hope the Young People of Kenansville can join the Magnolia group for this hour or couple hours of recreation.

The courtroom drama, "Prisoner at the Bar", given at the Kenansville Methodist Church was well attended last Tuesday night. Our cast of twenty local people played their parts very well and their pastor wants to thank them for the good they have done. The two men of the drama who were sent here by the Methodist Church, Board of Temperance, Rev. F. W. Wilkinson and Mr. S. J. Fickel, played their parts in a professional style. The audience was very attentive and seemed to enjoy the drama very much.

The pastor is reminding his official boards of the different churches of meetings to be planned or called at the earliest convenience to all concerned. There is much to be done before the Fourth Quarterly Conference and also Annual Conference. We want to have a good report and make a good showing at these Conferences, and we cannot do that unless we start planning where a sizeable group has a voice and we get to work very soon. The Board of Stewards and all other official members of the Church and Sunday School of Friendship have asked to meet with their pastor the last Friday night of the month, which will be July 29, at about 8:00 p. m. We are now waiting for the other four churches on the Charge to set their meeting night. Perhaps after the first meeting night, the other meeting

General Situation

Taking the state as a whole as of Saturday, July 16, weather-crops reporters indicate too much rainfall, soils too wet and temperatures excessively hot. On the other hand, no epidemic or disaster from hail, drought or floods was reported. An exception to this might be Hyde County where extremely heavy rain fell, doing considerable damage. The one continued reasonably dry area is in the southern Piedmont where even the pastures are reported to be poor in spotted areas.

Completeness of planting crops is generally reported to be in 100 percent from all parts of the state, and they are all well along in growth. Most small grains have been harvested.

Loses Barn

A tobacco barn belonging to Grady Mercer of Beulaville burned on his farm last Thursday. It was being operated by Colon Thomas.
