

PINK HILL - GRADY - SMITH NEWS & VIEWS

Pink Hill Tops Jayvees Again

The Kinston Jayvees suffered their second defeat of the season in Kinston Thursday last week in a game which was scheduled to have been played at Pink Hill but was shifted because of possible conflict with a banquet.

Pink Hill contributed eight runs and a tight infield to back up the two-hit pitching of Zack Williams and gain an 8-3 verdict.

Although trailing by an 8-3 margin at the end of six innings, Coach Amos Sexton's Red Imps made a strong bid in the seventh by talking two markers. Then, with one out and a runner on second, Dick Hill lined out to Tyndall, who tagged the bag to end the game.

Only one run in the game was unearned.

VFW Observe Ladies Night

The Willard Smith Post No. 9514 of the VFW observed ladies night with a sumptuous supper at the post home on Wednesday night. Officers for the new year were installed at that time and officers of the auxiliary to the post were recognized. Mr. Jasper Tyndall who was elected District Commander at a meeting held in Washington, N. C. on April 8th talked to the group and Mr. J. K. Smith, District Quartermaster also spoke briefly. Mrs. Linda E. Smith was named District J. vice president of the auxiliary at Washington.

Chaplain N. P. Farrior closed the meeting with prayer.

Pink Hill FFA Group Celebrate At Dinner

The Pink Hill chapter of Future Farmers of America celebrated its most successful year at its annual father-son banquet in the cafeteria last Friday night.

The chapter doubled in size in the past year and now has 52 members. This was the fourth year that John E. Johnson has served as FFA adviser and vocational-agricultural teacher and the ninth grade class which has formed the backbone of the group in those years will be graduated this year.

There were no speeches but a full program of demonstrations, picture slides and short talks was enjoyed along with a turkey dinner. Neil Bolton, agriculture agent for the Tide Water Power Company, demonstrated to the crowd of about 125 how to learn to be an auctioneer, and slides showing the work of the FFA students, veteran students and Better Farming for Better Living participants were shown by Johnson.

H. D. Club Meets

Mrs. Adolph Howard was hostess to the Pink Hill Home Demonstration Club on Thursday afternoon. President, Mrs. Leslie Quinn presided. Miss Hartgrove, home agent gave a demonstration on "Freezing and Freezing Foods". Twelve members were present.

Mrs. Jones Smith Ill

Mrs. Jones Smith has been confined to her bed recently by illness. Miss Davis Jr. who has been ill with Diabetes at Parrotts Hospital in Kinston returned to his home Saturday.

Wins VFW Quilt

F. E. Smith of Albertson won the quilt given away to the one holding the lucky number, by the Auxiliary to the Willard Smith Post No. 9514 of the VFW at the post home Saturday night. More than fifty dollars was realized from the sale of tickets.

Mr. Willie Harper and Mr. A. B. Southerland visited Mrs. Dave Grady of Kenansville, RFD, Sunday afternoon. Mrs. Grady is recuperating from a major operation in a Kinston Hospital recently. We hope for her a speedy recovery.

Sharp drop in the divorce rate was forecast here today by Miss Lotte Hope, president of the National Society for Combating Incompatibility.

"I am confident there will be fewer divorces this summer, especially among married people," Miss Hope said, "because more men than ever before will be wearing the new Palm Beach" suit and will be less irritable when they get home from a sweltering day at work."

Miss Hope pointed out that Palm Beach's new patented Fiber-Lock method bounces out wrinkles and locks in smooth feel, no matter how hot and humid the weather gets.

When discovered admiring the handsome new colors and patterns at the Man's Store today, Miss Hope said that with a wide selection at such a low price (\$29.95) she was sure that the women of this city will insure domestic tranquility by getting their husbands into Palm Beach at the earliest possible moment.—The Man's Store, 129 N. Queen St.

State College Hints To Homemakers

By RUTH CURRENT
State Home Demonstration Agent
Paint Protection
Washing painted woodwork generally is scheduled for spring cleaning time. To protect and save the paint, home management specialist offer several suggestions:

Any paint can be damaged by strongly alkaline soap or other cleaners, abrasive powder and rubbing. Course scouring powder and strong cleaners remove or roughen the smooth outer surface of the paint so that it soils faster and is more difficult to clean. Strong alkali can weaken and also discolor paint. It is wise to try out any new cleaning preparation on an inconspicuous part of the paint first, carefully following directions that come with it as to how much and how to use.

A mild neutral soap for washing paint. If scouring is necessary, finely powdered whitening is suggested because it is one of the finest abrasives and is inexpensive by the pound at paint, hardware or drug stores.

In washing paint, it is important to wash only a small area at a time and rinse carefully before moving on to another area. Even a mild soap contains some alkali that will eventually injure paint if left on it. Directions for some commercial paint cleaning preparations suggest that no rinsing is needed. Yet many highly alkaline and will damage the surface if left on. Some cleaning solutions make the paint soft

while it is wet and then rubbing on damage it. With such cleaners there may be less damage from leaving a very little cleaner on the surface than from rubbing while rinsing. Be sure to use only the amount of cleaner suggested. The directions of the new detergents, like soap, are alkaline; others are slightly acid or neutral. They are satisfactory for washing painted surfaces in the kitchen or wherever a greasy film has formed.

North Carolina's huge cigarette industry boosts its U.S. Internal Revenue collections to over the billion mark annually. Collections for 1950 totalled \$1,131,615,763.

Each \$1.00 invested this year in **NATURAL CHILEAN NITRATE OF SODA PAYS BIG, EXTRA PROFITS!**

HERE'S WHY: Nitrogen content — all nitrate nitrogen . . . fast-acting . . . completely available . . . the only natural nitrate in the world.

Sodium content — contains 26% sodium (equivalent to 35% sodium oxide) . . . sodium is essential to maximum yields . . . substitutes for potassium, where lacking, and makes soil phosphate more available . . . helps "sweeten" the soil.

Other plant foods — natural traces of iodine, manganese, potassium, magnesium, boron, calcium, iron, sulphur, copper and zinc.

Ureic Method sows — "Look for the building factory on the bag. It means ureic method sows in Farrow's sowing machine. Used now for the best one hundred years."

300 lbs. of Chilean Nitrate increased yields of oats 35-40 bu. per acre.
Dollar return: almost 4 to 1. Chilean Nitrate also improves the feeding quality and the protein content of forage crops.

200 to 300 lbs. of Chilean Nitrate produced 150 to 200 pounds more lint cotton per acre.
Dollar return: about 10 to 1. You can't afford not to invest in natural soda this year!

300 lbs. of Chilean Nitrate increased yields of corn about 20 bushels per acre.
Dollar return: almost 4 to 1. Chilean Nitrate means maximum yields for maximum profits!
