Beula ville Baptists Baptize 34 People Into Christianity After Successful Revival

Beula ville and vicinity, has just experienced a religious revival which not only stirred the members and congregation of the Baptist church, but which reached out to neighboring communities.

The attendance, each morning at ten-thirty and each evening at seven-thirty, was not only good but a deeply spiritual interest was noticeable even from the beginning.

The preaching was of a high order, the messages being interesting, inspiring, true to the Scriptures and heart-searching.

The real power of the meeting was manifested by the fact that thirty-four were baptized Sunday night in the presence of a congregation which packed the church building to overflowing. Every available seating space was taken and some had to stand.

The baptismal service was very impressive with the auditorium lights out and only the invisible light above the elevated Baptistry shedding its soft light upon the scene.

Those baptized ranged in age

church choir added much to the fine spirit of the meeting.

Thirty nine members were added to the Beula ville Baptist church in addition to those uniting with other churches, and the entire community has felt the influence of this meeting.
