

IS YOUR JOB UP FOR EXPORT!

100 Jobs Exported Means Your Community Loses

■ \$360,000 In Annual Retail Sales

■ \$270,000 In Bank Deposits

■ 107 Auto Registrations

■ 112 Households

■ 74 Jobs In Other Enterprises

■ 4 Retail Establishments

CUT-RATE IMPORTS HAVE INJURED MANY AMERICAN INDUSTRIES AND WILL, IF UNCHECKED, INJURE MANY MORE... NO ONE KNOWS WHICH INDUSTRY WILL BE NEXT... IT MAY BE YOURS. BUT IN ANY INDUSTRY IMPORT INJURY RESULTS IN THE LOSS OF AMERICAN JOBS AND EVERY JOB LOST TO IMPORTS MAKES ONE MORE JOB IN SOME FOREIGN... THAT'S HOW JOBS ARE EXPORTED!

This Is What Imports Have Done To Our Industry...

Every Day jobs are being lost in the hardwood plywood industry because...

- 52% of the hardwood plywood sold in America is imported from abroad.
- American producers have been left with less than half their own market.
- 80% of the imported hardwood plywood comes from one Country, Japan.
- The huge difference between Japanese and U. S. wages prohibits fair competition.
- Our Government's give-away trade policy promotes foreign businesses at our expense.

THIS MEANS THAT, IN OUR OWN INDUSTRY...

- We are exporting American jobs at a time when jobs are hard to find.
- We are exporting the money jobs contribute to American communities.

YOU CAN HELP CONGRESS MAKE THE RIGHT DECISIONS ON THE VITAL MATTER OF FOREIGN TRADE... WRITE TODAY AND TELL YOUR CONGRESSMEN THAT IMPORTS INJURING AMERICAN INDUSTRY MUST BE RESTRICTED TO SAVE YOUR JOB AND YOUR COMMUNITY!
