LEGAL NOTICES

NOTICE OF SALE
NORTH CAROLINA
DUPLIN COUNTY

Under and by virtue of the power of sale contained in a certain deed of trust executed by Jasper F. Taylor and wife, Annie Pearl Wiggins Taylor, to William E. Craft, Trustee dated February 7, 1959, and recorded in Book 523, page 329, in the office of the Register of Deeds of Duplin County, North Carolina, default having been made in the payment of the indebtedness thereby secured and said deed of trust being by the terms thereof subject to foreclosure and the holder of the indebtedness thereby secured having demanded a foreclosure thereof for the purpose of satisfying said indebtedness, the undersigned trustee will offer for sale at public auction to the highest bidder for cash at the courthouse in Kenansville, North Carolina, at noon, on the 24th day of April, 1961, the property conveyed in said deed of trust, the same lying and being in the County of Duplin and State of North Carolina, in Magnolia Township and more particularly described as follows: Being a part of the tract of Isiah Robinson Tract of land, joining the lands of Dr. R. F. Quinn on the North, on the South by Stanley J. Robinson, on the East by Stanley J. Robinson, on the West by Stanley J. Robinson, containing 14 acres, more or less. And being the same tract deeded to H. C. Hanchey and wife, Blanche Hanchey, dated August 21, 1936, and recorded in Book 373, Page 595, Duplin County Register. A ten per cent deposit will be required of the successful bidder as evidence of good faith. Advertised this 23rd day of March, 1961.
William E. Craft, Trustee

Early Morning HDC Met

The Early Morning Home Demonstration Club held its regular meeting at the club house on Tuesday.

The meeting was called to order by the president, Mrs. Archie Benson and the group sang "Aunt Dinah's Quilting Party." The devotional was given by Geraldine Summerlin reading Corinthians the fifteenth chapter.

Thirteen members answered to the roll call and one new member was welcomed. During the business session the Cancer Crusade was discussed. The club voted to contribute to this fund.

Educational report was given by Mrs. Corn Wells, Nora Winstead and Mrs. Emma Grady were awarded certificates of recognition for reading the New Testament. Mrs. Mildred Mathis gave a report on Music. Mrs. Polly Hardy gave a demonstration on the best use and care of your refrigerator.

Mrs. Mildred Mathis, recreation leader, led the group in games during the social hour, at which time the hostesses, Mrs. Mary Kenneby and Mrs. Thelma Whitman, served delicious punch, cup cakes and potato chips.

Announce Birth
Mr. and Mrs. Robert Rhodes of Beulaville announce the birth of a daughter, Theresa Yvonne, on March 26, Mrs. Rhodes is the former Hannah Quin of Kenansville

Note Of Thanks
I wish to express my sincere appreciation to each and every one who remembered me in so many thoughtful ways with their visits, prayers, cards, flowers and especially to you who donated blood for me. May God richly bless each of you.
Virginia Barnette.

Card Of Thanks

I wish to express my deepest appreciation for the many flowers, cards, gifts and visits I received while I was a patient in the hospital last week. I also would like to thank all the staff at Duplin General Hospital for being so nice to me.

VELSICOL VELSICOL INSECTICIDE REPORT

PROTECT YOUR TOBACCO CROP!
KILL WIREWORMS and other soil insects with **HEPTACHLOR INSECTICIDE**

This field was treated with Heptachlor three weeks before tobacco was set. Very little retooling necessary. Photo taken early June.
Same field of tobacco in July. No plants stunted by wireworms. The crop will give good yield of top quality tobacco.

Wireworm damage causes considerable retooling. It also causes stunting of many plants. This results in a low yield of poor quality tobacco. Heptachlor kills wireworms, and protects your valuable crop. Heptachlor also kills cutworms, white fringed beetle larvae, Japanese beetle larvae, mole crickets, weed corn maggot, billbugs, tobacco webworms, green June beetles, and many other soil insects.

WHEN TO APPLY—For best results, Heptachlor should be applied to tobacco 30 days before tobacco is set. This early application will allow for better distribution of insecticide in the soil. If weather conditions prevent earlier application, Heptachlor can be applied right before planting, but the results generally are not as satisfactory. Apply 2 pounds actual Heptachlor per acre broadcast. Application should not be made until the land has been plowed. Disc into the soil immediately after application.

HOW TO APPLY—Heptachlor is available as a liquid, dust, or granule. It can be purchased to suit the particular equipment you have on your farm. Large acreage can be treated with a tractor mounted duster or lime sower. Small acreage can be treated easily with a hand-operated cyclone sower.

• EASY TO APPLY • ECONOMICAL • VERSATILE
• SAFE—APPLY AS DIRECTED • LASTING RESIDUAL ACTION • ONE APPLICATION • NO OFFENSIVE ODOR

HEPTACHLOR
increases corn yields!

ALABAMA FARMER HARVESTS 60 BUSHELS PER ACRE MORE WITH HEPTACHLOR! Roy Snellgrove of Gordon, Alabama, had poor stands of corn because his fields were infested with corn billbugs. Using 2 lbs. of actual Heptachlor per acre he treated 30 acres and left a similar control plot untreated. Result: the 30 acres treated with Heptachlor yielded 100 bushels per acre. The untreated plot yielded only 40 bushels per acre. Says Snellgrove, "Now I plan to use Heptachlor on all my corn acreage!"

NORTH CAROLINIAN BOOSTS CORN INCOME \$36.75 PER ACRE USING HEPTACHLOR! Dennis W. Simmons of Fairfield, North Carolina, treated part of his corn land with Heptachlor. Another portion of the same field was planted without Heptachlor. By actual plant count, the Heptachlor treated area produced a 35% better stand. Southern corn rootworms, wire worms, and billbugs were effectively controlled. The untreated area yielded 50 bushels per acre; the Heptachlor treated acreage: 85 bushels per acre for an increased yield of 35 bushels per acre!

These typical examples show how Heptachlor produces better corn yields, improved quality and more profits for you! Heptachlor kills corn damaging soil insects that cause poor germination, spotty stands and lodging. Your dealer can supply you with Heptachlor in easy-to-apply sprays and granules. Make your corn stand up and grow... get Heptachlor!
