RALEIGH ROUNDUP

BY KIDD BREWER

RETIRED . . . William Conrad, who retired some time ago as Secretary of the Reynolds Tobacco Company, has been a patient in the Bowman Gray Hospital in Winston-Salem since before Thanksgiving. He is recovering nicely and may be home by the time this is printed.

William probably holds some kind of distinction due to the fact that he is Chairman of the Board of Trustees of both Wake Forest College and Appalachian State College. Last summer William was on a trip to the beach with his brother Jim and Robert. They stopped at a restaurant for lunch. When the waitress brought the check, William told her to give it to Jim. Jim took the check and remarked, "That is what I get for traveling with somebody who is out of a job."

SHELBY'S BOB BELL . . . Big Bob Bell, Minnesota's 6 ft. 4 in., 229 pound All American tackle is from Shelby, N. C. He played fullback on the colored high school team at Shelby.

The late Jim Tatum was in Shelby to look over another prospect and was told about Bell. Tatum met Bell and asked him if he would like to go to college at Minnesota. Bell said he would and Tatum contracted Jim Camp, who was on the coaching staff at Minnesota, and made the arrangements.

Incidentally, Jim Camp played for Tatum at Carolina and served on the staff at UNC before going to Minnesota.

Camp is now the coach at George Washington.

HYDROPHOBIA . . . Dr. William Ploumbois, President of Appalachian State College, is a man of great ability and great IMAGINATION.

Bill was once bitten by a neighbor's dog. This occurred at a time when there was a rabies scare in the neighborhood. In fact on the occasion of Bill's visit in the final stages of hydrophobia and had to be placed in the jail and held by straps to prevent him from biting himself to pieces.

During this time Bill had to attend a meeting in Chicago. Shortly after his arrival in the Big City, Bill began to have the following symptoms: His throat became sore. He had violent headaches. He had a temperature.

Bill high-tailed it to a doctor for advice. The Doc suggested that Bill contact the owners of the dog which had bitten him, and get a report on the animal.
Bill sent a telegram to his neighbors and waited and waited for a reply. Bill, in the meantime, told his lovely wife above, what gave her instructions to have him placed in the hands of the Chicago police department for safe keeping in the event he should get much worse before he got a reply from his telegram. The following day Bill received his much awaited telegram. He tore it open and hurriedly read it. It said, "Thanks for your concern about our dog. He is fine. Hope you are the same."

FURLINED HIGHWAY . . . A friend just back from an auto trip to the west coast reports that so many jack rabbits are killed on the highway west of Salt Lake City it looks like torn up road. Now we have coyotes.

ART VANN . . . Those who know Art Vann, the North Carolinian from Durham, who is a candidate for President of the National YDC say that Art may not make it, but that he will give them a good run for their money. The Convention is being held in Miami.
Art was a scrapper when he was an athlete at Duke and he still is. He probably will not have the solid backing of his home state boys at the Convention but he really knows how to generate steam of his own.

JAMES T. SANFORD . . . No many people would be impressed if they were introduced to Jimmy Sanford — unless they happened to know that it was Governor Sanford they were meeting. Yep, his name is James Terry Sanford.

CLARENCE STASAVICH . . . Most folks never thought that East Carolina College would be able to take Clarence Stasavich away from Lenoir — Rhyne. The rumor is that Coach Stasavich was having differences of opinion with some members of the Lenoir — Rhyne administration. It's a good bet that he will find the same trouble at his new base of operations before many moons. Life is turmoil.

QUOTED . . . "The young leaves have matured and ripened into a blaze of glory then dropped to the ground to renew the earth."
We, likewise, shall grow and mature to our golden years, then drop to the earth and return to dust.
