**CAPITAL KNOWLEDGE**  
By W. N. Bill Taylor, Assistant Vice President

**PUERTO RICO**  
San Juan is the Capital and chief seaport of the island. The older part of the city lies on an island off the northern coast of Puerto Rico, with modern residential districts across the channel on the main island. Four bridges and a highway over the water link these parts of the city. Trade, various manufactures, and government are the chief activities. San Juan is the only fortified city in Puerto Rico. Some of the Spanish forts and the walls that surround the older part of the city are 250 years old. Morro Castle, built in 1584, lies on a bluff dominating the entrance to the bay, which is one of the best harbors in the West Indies. The city was founded in 1511 by Ponce de Leon, and was the seat of the Spanish provincial government.

## Outdoor Terrace Garden To Be Feature Attraction At Flower & Garden Show

An outdoor Terrace Garden will be one of the feature attractions at the forthcoming Southeastern Flower and Garden Show in the North Carolina State Fair Arena at Raleigh, February 23-27.

The Terrace Garden will be installed by Laurel Lake Gardens and Nursery of Salemburg and was designed by Richard C. Bell, Landscape Architect for the Show.

The garden will be one of the largest ones on the show, covering an area of approximately 1250 square feet. Puneral Architectural features in the garden include an ornamental concrete masonry screen wall, a large circular brick terrace, a curved trellis with vines overhead, and several beautifully designed outside plant containers. All features are to human scale and the garden will be open to garden lovers for close-up inspection of details and plantings.

The plantings used in the garden will include many varieties of hollies, azaleas, camellias, gardenias, and several small flowering dogwoods and redbud. The flowering shrubs will be in bloom for the show and all plants will be labeled for easy identification. Several of the hollies are of the newer varieties shown for the first time in a speci-

men size. "These plants," said Mr. Howard of Laurel Lake Gardens, "are harder than our more commonly used varieties and the foliage is more beautiful." Our patrons and the future gardeners should learn about them and their use in the landscape.

The over-all conception of the garden is in a circular form motif. All features are designed as a circle or a segment of a circle. Mr. Bell stated: "Curving lines are unbeatable in the landscape for they repeat the fundamental forms of nature. The resultant spaces and unusual sensations are very pleasant to the beholder at all times."

Laurel Lake Gardens and Nursery, Inc., is located at Salemburg, N. C. Display areas of camellias, azaleas, and hollies, in which the nursery specializes, can be seen around a beautiful lake. Many large specimens of these plants can be viewed and mentally referenced as to their ultimate growth size.

## Flower & Garden Show In State Fair Arena-Feb. 23

Winter is here but Spring is not far away. On February 23, Mrs. Terry Sanford will cut the ribbon to officially open the Southeastern Flower and Garden Show in the State Fair Arena in Raleigh. For the second time the long felt need in the South, a Major Flower Show, will be in full blossom with all the beauty of mother nature on exhibit.

Gardens filled with hundreds of Southern grown trees, shrubs and flowers, radiating beauty, splendor and simplicity, will make the visitor realize how easily they can be reproduced. This is "summer in the gardens" by the Flower Growers Association and the North Carolina Association of Nurserymen.

The magnificent arrangements by the Retail Florists will be highlighted by public demonstrations of flower arranging by such outstanding floral designers as internationally known Mrs. Tommy Bright as well as many of our own North Carolina designers. One, "the designer of the year," is Frank Joyce of Sanford.

The Standard Flower Show by the Garden Clubs of North Carolina, Inc., will lend the "Woman's touch" to the beauty and splendor of the Show.

The north lobby will overflow with exquisite loveliness. From the ceiling to the floor, there will be orchids of all descriptions, color and size put there by the Orchid Society.

The weary feet will find benches among the gardens where they can relax and drink in the beauty of the unbelievable surroundings. A visit to the attractive Sidewalk Cafe will be a very pleasant and relaxing pastime. Fashions of the very latest in design and fabric, which range from little to much, will be displayed every evening at 8:00 o'clock.

## Boating Equipment Laws Now In Effect

Before you take your boat out for a spin on North Carolina waters, be sure that everything aboard, including the certificate of registration, is in proper legal order.

John O. Edwards, wildlife protector in Duplin County, warned that all Tarheel boatowners should keep abreast of state and federal boating laws.

Protector Edwards said that carbon tetrachloride fire extinguishers and others of the toxic vaporizing-liquid type such as chlorobromomethane are no longer approved equipment as of January 1, 1962. The U. S. Coast Guard withdrew approval of this equipment effective December 6, 1958, but allowed use of these extinguishers until January 1 of this year in order that boatmen could replace them with approved foam, carbon dioxide or dry chemical types.

Protector Edwards also reminded boatowners that only Coast Guard approved lifesaving devices would be considered as legal equipment. Lifesaving equipment that cannot be Coast Guard approved will not satisfy legal requirements, and will be dealt with accordingly.

"For their own safety," Protector Edwards said, "boaters must obtain approved lifesaving devices, and citations will be issued for using improper lifesaving equipment."

"State and federal laws are explicit about boat numbers," Edwards added, "and citations will be issued to operators of improperly numbered boats. The number assigned to the boat and no other shall be painted on or attached to the bow and must be distinctly visible and clearly legible. The letters and numerals must be of plain block design, not less than three inches high and of a color which will distinctly contrast with the background. White letters and numbers bordered in black don't qualify when used on a light colored background. If these bordered letters and numbers are used on dark backgrounds, the light-colored, visible portion must be at least three inches high.

"Also, between the prefix, the numerals and the suffix the law requires a hyphen or a space equal to a letter or numeral other than 1 or L" added Protector Edwards.

"Enforcement officers will be watching for compliance with all these requirements which make motor boating safer, more pleasant and more orderly," he said.

## Douglas School Band Attends Clinic

Ten members from the Douglas High School Concert Band attended the Southeastern District Band Clinic held at Raeford, February 10. Approximately 300 students, representing the major bands of the Southeast, were on hand for the competition. Fifty-nine students were chosen, by means

of audition, to play in District Band I. Nine students from Douglas were chosen. They are: Annette Carlton, 2nd Clarinet; Cheryl Foster, 1st Clarinet; Emmie J. Frederick, 1st Clarinet; Othello Hopkins, 1st Bass; Cliver Jones, 2nd Eb Alto Horn; Patricia Miller, 1st Bell Lyr; Steven Moore, 1st Trombone; Otto Newkirk, 1st Tenor Saxophone; Matt Vann, 2nd Cornet.

In the afternoon session, Band I rehearsed numbers from the state list. Later that afternoon, a concert was given.

The Douglas High School Band is under the direction of L. W. Hoover.

## What Questions Vets Are Asking

Here are authoritative answers by the Veterans Administration to questions from former servicemen and their families:

Q-I am a veteran who has been retired from active service because of disability. I have GI insurance with the Total Disability Income Provision Rider. May I apply for the TDIP payments?  
A-You may apply. In order to qualify for the TDIP payments, you must present medical evidence that you are disabled to the extent that you cannot carry on substantially gainful employment.

Q-I have a participating GI insurance policy. When may I expect to get my 1962 dividend payment?  
A-The VA is paying the 1962 insurance dividend on the anniversary date of each policy - that is on the date the policy became effective.

Q-Does marriage bar an otherwise eligible child of a deceased veteran from the War Orphans Education program?  
A-No. The child is still considered an "orphan" for all purposes of the program until age 23 and, in certain cases, after that age.

Want of uniform justice is a crying evil caused by the selfishness and inhumanity of man.  
- Mary Baker Eddy

## What size Chevrolet do you want to save money on?

**CHEVROLET IMPALA** Room, refinement and riding comfort. Foreground, the Impala Sport Sedan.  
**CORVAIR MONZA** Sports Car, spice without a sports car price. At rear is the Monza Club Coupe.  
**CHEVY II NOVA** The frisky family-sized Chevrolet with a low, low price tag. Above right, Nova Sport Coupe.

Like your driving sporty, with quicksilver steering, flat-as-a-pancake cornering, sure-footed traction? Then a Corvaire Monza's for you.

Or maybe the new-size Chevy II is more to your liking. Built for big families and still slips neatly into small parking places. And, with this, the kind of ingenious engineering (new easy-riding Mono-Plate rear springs, for example) that won this year's coveted Car Life Magazine Award for Engineering Excellence.

But say you want to go all out—to get the full treatment in space, spirit and splendor. Then there's nothing like a Jet-smooth Chevrolet. Makes paying more pointless.

So size 'em up—then save it up—at your Chevrolet dealer's.

See the new Chevrolet, new Chevy II and new Corvaire at your local authorized Chevrolet dealer's
