Price, spice and everything nice!

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized Body by Fisher that's fit for a full-size family inside, easy to park outside. Still another: tough but gentle one-piece Mono-Plate rear springs that outdo many a bigger car for quiet comfort. Any wonder Chevy II won Car Life magazine's 1962 Engineering Excellence award hands down? (The wonder would be if you settled for anything less—once you get your hands on one at your Chevrolet dealer's!)
