Open Letter To All Farmers

H. Weil & Bros.

GOLDSBORO, N. C. 734-1551

DEAR FARMER FRIENDS:

Would you like to hasten the growth of this late cotton and tobacco crop? We are confident you can hasten your crop if you will use Well's Side Dressers. We would like to suggest that this be done as early as possible.

WEIL'S RIPENS RIGHT Tobacco Side Dresser.

An application of 200 pounds per acre of this superb side dresser will give you that extra poundage of grainy, quality leaf tobacco that the buying companies are going to be looking for this fall. Be ready by using Well's Ripens Right. It's granular and can be dropped near the hills or sown with distributor. You will get a quicker start if you will apply Ripens Right in the planter furrow as soon after transplanting as possible before the plant is ready for your second application of more fertilizer.

WEIL'S GRANULAR 14-0-14 "More Fruit - Less Stalk" Side Dresser

Cotton that matures early with a nice big fluffy ball of good grade and staple is what you are looking for. A generous application of Well's "More Fruit-Less Stalk" Side Dresser will do just that for your cotton crop.

If your corn land is shy of Potash you will be disappointed in your corn yield unless you use 14-0-14. We highly recommend this side dressing in such cases. It will make a much heavier ear of corn.

WE ARE IN POSITION TO FURNISH YOU WITH ANY FILL-IN ORDERS YOU NEED FOR COMPLETE FERTILIZERS FOR ALL CROPS.

SOLID NITROGENS, NITROGEN SOLUTIONS AND ANHYDROUS AMMONIA

For corn, cotton and any crop where a single nitrogen is wanted we can fill your need. We have a group of experienced and careful nitrogen solutions and anhydrous ammonia applicators that will apply the liquids to your crops saving you time and money. We invite you to contact our Agents in your Community, or call on us direct.

Yours truly,
H. WEIL & BROS.
