

Little League Baseball:

Kenansville Little League Continues To Lead Tar Heel League With 4-0, Record.

Paul Britt Hurls "No-Hitter" As Warsaw Pony League Team Defeats Rose Hill 9-0 Mickey Walker Stricksout Seventeen As Warsaw Stops Wallace In Opener Last Week, 4-1.

Manager Del Parkerson's League Leading Lions Take On Rotary Wednesday Afternoon This Week; Warsaw Little League Play Gets Underway After A Week Layoff During Boy Scout Camp Week.

While the Warsaw Little League team have been hailed a week, the Kenansville Yanks of the Wallace Little League have continued to dominate the league with a perfect 4-0 record.

Last Friday night the K'ville Yankees defeated the Wallace VFW 6-7, behind the four hit pitching of Doc Brinson, Steve Summerlin and Clark Helton. Brinson hurled four innings giving up one hit, two walks while striking out eight. He had to be removed from pitching because Little League rules only allow a boy six innings in any given seven day period. Doc had pitched in an earlier game allowing only four innings in this game.

Clark Helton came in in relief of Steve Summerlin in the sixth with the bases loaded and one out. Helton struck out the next two batters and retired them in order in the seventh for the win.

The Yankees Terrible Terry Williams with a 700 batting average pace the winners with three-for-four. Brinson with a 3-0 pitching record had two doubles for the Yankees to up his average to hefty .700.

Speedy Aycock hurled the VFW within one run of the front running Yanks striking out 11, while giving up only two bases on balls. Gene Simmons the VFW catcher had two doubles to lead the Wallace team.

Manager Bill Straughan's Warsaw Little League team will play Wallace at James Kenan Field this coming Thursday afternoon. If you would like to see your former Little Leaguers in action or would like to see just what Little League has meant to these boys... just come out to JK Field Thursday.

Members of the Warsaw Pony League team under the very capable leadership of Bill Straughan, a former James Kenan great quarterback are: Mickey Walker, Paul Britt, Arthur Minshew, Harry Lee Thigpen, Larry Cooke, Ken Minton, M. H. Barr, Jimmy Medlin, Larry Hilton, Lynn Hilton, Billy Martin, Ronnie Batts, Ira Sutton, Mickey Davis, and Harold Lewis.

Doc Brinson picked up his third win of the season hurling a 3-2, win over the Rose Hill Chicks this week for the K'ville Yanks.

The league leading Yanks picked up two runs in the third to assure the Kenansville team of its fourth straight win. Again it was the hitting of Terry Williams that paid off. Terrible Terry, as he is called by his teammates, had two-for-three, a home-run and double.

The Chicks star pitcher Mitch Robinson went down to his first defeat of the season. Robinson had given up only one hit in winning two straights for the chicks.

We give advice by the bucket, but take it by the grain.

-W. R. Alger

Men give counsel; but they give not the wisdom to profit by it.

-Mary Baker Eddy

Harsh counsels have no effect: they are like hammers which are always repulsed by the anvil.

The most economically important bird to man is the chicken.

Children's Day and Free Bicycle

Tuesday, the second day of the Fair will be Children's Day at the County Fair. All the school children in the county, white and colored, and Pink Hill and Richlands will be admitted free and given a free chance on a Bicycle. The bicycle will be given away at a drawing on the evening of Children's Day at around 8 o'clock.

The Jaycee Fair Committees were chosen at the last Jaycee meeting and are as follows:

Fair General, Chairman, Alfonso "Pony" Quinn; Fair General Treasurer, Bill Cutler; Fair Manager, C. M. Rumley, Durham; Steering Committee, Russell Bostic, Pres. I. J. Sandlin, Joe Edwards, Raleigh Daniels, Bill Cutler; Premium Book Committee, Wilbur Hussey, Jr., Chairman; Parking Lot Committee, Joe Altonson, Chairman; Site Committee, Perry Williams, Chairman; School Days Committee, Ramon Davis, Chairman; Commercial Exhibit Committee, Raleigh Lanier, Chairman; Personnel Committee, Herman Gore, Chairman; Farm Exhibit Committee, George R. Cowan, Chairman; Publicity Committee, James M. Howard, Chairman.

Industrial Develop.

(Continued From Front)

tion of Basic Data Sheets." Thomas B. Broughton, chief of Community Development Section of the C & D presided at the meeting.

Robert Barbour, administrator of Division of Community Planning gave an inspiring talk on Community planning. "We are selling the small communities short," he stated. "We are losing our productive population which makes most in the future, an aging population with all of its problems. The problem of locating an industry is much greater than just selecting a site. Citizens must become aware that they can make improvements in their communities with proper planning and foresight." He further pointed out that planning improves leadership. Planning can make the people in the community aware of what they can do. Planning must have effort put behind it.

Hunter Poole, Development Representative of the Division of Commerce and Industry of C & D told the group what to do before and after a prospect arrives. He pointed out that the best salesman for each community is "you" each individual. He suggested that each community start a "Big Courtesy" week to last 52 weeks out of the year. A further suggestion was that communities treat each prospect as they would like to be treated themselves. One of the main items that was pointed out was to have correct information ready at all times and to follow-up prospects. He closed his talk with the quotation, "You can't climb the ladder of success with your hands in your pocket."

A delicious luncheon was served in the lunch room of the school at which time James R. Hinkle, Administrator of Division of Commerce and Industry, spoke to the group. Hinkle explained the program of the C & D Department and told of the assistance the department was able to offer to the communities.

"How to Develop Prospects on Your Own" was ably presented by Douglas Allison, Development Representative, Division of Commerce and Industry. Allison urged that after a study and survey of your community and its most suitable sources of information, work with sales representatives, best newspapers and magazines, state agencies as the C & D, Railroads and Utilities. Personal contacts are always best. Directories and specialized directories can be of great assistance. He suggested a good idea would be to appoint someone in the community, the proper person, to make the presentation to the prospect, keep the compiled information. Most important is to keep eyes and ears open.

Broughton closed the program with an explanation of the data sheet which is discussed in another story in this paper.

County Board

(Continued From Front)

period June 25th through July 13.

The following plan for the improvement of Secondary Roads in Duplin County as approved by the North Carolina State Highway Commission for 1962 - 1963 was received as follows: (in order of Serial No., Length, and Description.)

CP&L Pay Counties Towns \$2 1/2 Million

Tax collectors in 57 counties and 182 cities and towns of North Carolina began a tax harvest this week that will add \$2,580,000 to their local coffers.

The revenue, used in most instances by city and county governments for health, education and welfare purposes, represents annual payment by Carolina Power & Light Company of its 1962 real and personal property taxes. C. P. & L.'s total tax payments this year, including local state and federal, will amount to approximately \$20,000,000.

W. D. Gardner, C. P. & L. manager, said that many of the local governments will receive checks this week. All others in which C. P. & L. does business will receive payments later in the year to coincide with discount periods. Payments for 1962 are up \$172,000 over 1961.

He added that the property tax represents only about one-fourth of C. P. & L.'s total North Carolina tax bill of an estimated \$8,313,000. Payments will include \$4,650,000 in state gross receipts tax; \$993,000 in state income tax; \$41,000 in privilege license tax; \$22,900 for motor vehicle licenses; \$19,600 for unemployment tax; and \$8,000 for intangible tax.

In addition, C. P. & L. will make similar payments in South Carolina and will also pay the federal government taxes totaling some \$10,000,000, bringing its total tax payments for 1962 to \$20,000,000.

50 Students At Summer School At James Kenan

50 students completed the first term of the current session of summer school at James Kenan High School, June 22.

Classes in Algebra I, Algebra I and Plane Geometry are taught by Mrs. Peggy Sloan of Wallace and Miss Grace Kennedy of Beulaville. Classes in English I, II and III are taught by Mrs. Margaret Glasgow of Wallace. All instructors are certified in fields in which they are teaching.

Students from Beulaville, Chinquapin, Wallace-Rose Hill, James Kenan and Mt. Olive schools are participating in the remedial make-up work. The school is operated under state regulations and credit will be given for all satisfactory work completed by the students.

D. B. Touchey, Assistant Superintendent of Schools, says "Attendance has been almost perfect and the students seem very interested in their work. This is the second year we have had a county-wide summer school."

New Peace Corp Project In Brazil

The Peace Corp has accepted an invitation from the Government of Brazil to send 143 Volunteers to assist the Sao Francisco Valley Commission in the integrated development of the 2000 mile long river valley. This program will affect directly 5 1/2 million people who now live in the valley area.

Volunteers will be assigned to agricultural extension work, rural electrification, irrigation, health education, sanitation and social work. The project requires 89 agricultural specialists and workers with training and/or experience in various agricultural, forestry and home economics skills, 13 electrical engineers and/or electrical technicians, 10 health and medical technicians, 15 mechanics, 2 marine diesel repairmen, 2 radio technicians, 4 cottage industry instructors, 3 geologists, 3 welders, 2 fishing technicians, 1 carpenter, 1 cotton textile worker and one audio-visual specialist.

Training of Volunteers selected for this project will begin about July 30, 1962, and will include on-the-job skills, as well as language and culture of Brazil. Prior knowledge of Portuguese will be helpful, but it is not a requirement for selection.

Volunteers must be American citizens at least 18 years of age. There is no upper age limit. The basis educational requirement is a high school education. Greater formal training or experience is required for some positions. Married couples are eligible if both husband and wife qualify and they have no dependents under 18.

Volunteers receive a living allowance for food, clothing, housing, medical care, transportation and incidentals plus a termination payment of \$1800 based on \$75 for each month of service.

Peace Corp applications may be obtained from local post offices; county agents, Peace Corp Liaison officers at colleges and universities, or from the Peace Corps, Washington, 25, D. C. They should be completed as soon as possible and returned to the Peace Corps, Washington 25, D. C.

He conquers twice, who upon victory overcomes himself.

FHA Forestry

(Continued From Front)

1. Permit acquisition of a forestry tract.

2. Facilitate the ownership of forestry tracts or land suitable for forestry production as family farm units.

3. Permit farmers to realize needed income through sustained yield forestry.

4. Better utilize acreage suitable for forestry production.

5. Aid in shifts of land use in accordance with national needs.

One of our problems at present is a surplus of certain crops and one way to correct this problem is by removing excess cropland from production. The present method being used is to pay farmers to let this cropland lay idle. The problem here is that the following year it can easily go back to producing surplus crops. This loan would aid in connecting these idle acres to permanent woodland through seeding the land with trees. This not only will give the farmers future income, but will permanently retire the land from crop production at no cost to the Government or taxpayer. The loan will also permit the farmer to begin realizing income from woodlands that have in the past been overlooked as a source of income.

How can a farmer repay such a loan on income that may be far in the future? This problem is solved by the following example: An applicant who proposed to convert cropland or wasteland into a tree farm through seeding can receive this loan at a three percent (3%) interest rate and make no payment up to fifteen (15) years. About the time he would normally be making his first thinning for pulpwood sale at the 12 to 15 year growth, the first payment would be due. This will allow him to let the woodland pay its own way, while being a sound investment for him.

At the same time it will be a wise and sound investment for our future.

lure need for wood products, while conserving our soil and water resources.

These loans are made on sound forestry plans prepared by FHA with assistance of the Extension Service, U. S. Forest Service, Soil Conservation Service and State Forestry Technicians. This plan will include projected yield, plan expenses and estimated income, a cruise of existing timber, and the kind of forestry products sales, such as pulpwood and other uses.

These loans may be worked in with loans for normal purposes as a separate loan.

Interested persons can receive information by calling at the FHA office located in Kenansville.

Seize the present; trust the future as little as you may.

-Harace

Don't follow any advice, no matter how good, until you feel as deeply in your spirit as you think in your mind that the counsel is wise.
