Some children who saw the Bryan boy go under ran to summon the youth, who was nearby. When they saw the youth also sink the children rushed to summon two men in the neighborhood, Harry Swain and Dick Weatherly, who pulled the boys out of the water and applied artificial respiration, to no avail. The two victims were then rushed to the Columbia hospital, where further efforts were made to resuscitate them. Both victims in the double tragedy were from the Malachi's Chapel section. The Bryan boy is survived by his parents, the Rev. Herbert Bryan and Mrs. Margaret Bryan; two brothers, Council and D onnie, both of the home; his paternal grandmother, Mrs. Rannie Bryan of Beulaville, and his maternal grandparents, Mr. and Mrs. Ellie T. Howard of Richlands.

FLUE-CURED TOBACCO MEET SCHEDULED  
The 16th Annual Stockholders Meeting of Flue-Cured Tobacco Cooperative Stabilization Corporation will be held on Friday, June 29 in Raleigh, N. C. at the Sir Walter Hotel, beginning at 10:00 a.m. Raymond A. Ioanes, Administrator, Foreign Agricultural Service, U. S. Department of Agriculture, will be the principal speaker. Mr. Ioanes has played a prominent role in shaping USDA's export policies and activities and in recent months he has spent much time in the United States and Europe on problems involving the European Common Market. Inasmuch as seventy-five percent of U. S. flue-cured exports move into those countries already in the Common Market and countries which are potential members, U. S. growers are vitally concerned. Mr. Ioanes' speech on the Common Market will certainly be timely and worth-while. In addition to Mr. Ioanes' address, President Carl T. Hicks and General Manager L. T. Weeks (both of Flue-Cured Stabilization) will make their annual reports. Growers of flue-cured tobacco and other interested persons are urged to attend this meeting.

**1962-CROP RYE SUPPORT RATE ANNOUNCED**  
Prices for the 1962 crop of rye will be supported in North Carolina at \$1.02 per bushel for the 1962 rye crop. For major producing areas, where 85 percent of U. S. rye production is grown, the county rates, reflect the terminal rates less the freight and handling charges needed to get the rye to terminal markets. No change has been made from the 1961 discount schedule for ergot. To be eligible for support, rye must contain not more than 1 percent ergot. As in previous years, price support on 1962-crop rye will be carried out through farm and warehouse-stored loans and purchase agreements. Support will be available from harvesttime through January 31, 1963. Loans will mature in North Carolina on February 28, 1963. Growers are reminded that participation in the 1962 feed grain program for corn, grain sorghum or barley will not be a condition of eligibility for price support on 1962-crop rye. Participation in the 1961 feed grain program was required for 1961-crop rye price-support eligibility.

**MISUSE OF TOBACCO MARKETING CARD**  
The office manager was in Federal Court in Wilmington on Tuesday and Wednesday of this week. One of the cases being tried was the U. S. Government vs Jacob Smith for the misuse of Smith's tobacco card. Smith was fined \$250 and given a 2 1/2 year sentence, suspended to 3 years probation.

**CORRECTION**  
The Price Support Summary Card mailed you with Notice PS-203, dated April 17, 1962, shows the North Carolina support rate on Middling 1" Cotton in the Eastern Area to be \$3.40c. This should be corrected on all cards to show \$3.45c. The card showed Middling 1" Cotton in the Western Area to be \$3.48c. This should be corrected to show \$3.51c.

**ALL IN FUN**  
An American and a Russian soldier faced one another across the barriers of East and West Berlin. In time they fell into an argument. "In my country," said the American, "I can go to the door of the White House and ring the bell and say just what I think of Kennedy."  
"So what," said the Russian contemptuously. "In my country I can go to the gate of the Kremlin and say just what I think about Kennedy."
