NLRB Conducts Second CTT-CWA Hearing

For the second time in three months, a representative of the National Labor Relations Board heard testimony in connection with a petition by the Communications Workers of America, AFL-CIO, to organize a labor union among Carolina Telephone and Telegraph Company employees.

The hearing, which took place in Tarboro on June 1, resulted from

the CWA's petition for an election among the company's traffic employees to determine if they desire the union as their collective bargaining agent.

In March the union appeared before NLRB representatives seeking a similar election among employees of the company's Plant Department. In the election, which took place during early May, the union was defeated by a vote of 581 to 164.

At the June 1 hearing, the union maintained that only eligible Traffic Department employees should be permitted to vote in connection with the current petition. This would exclude supervisory, professional, and confidential personnel em-

ployed in that department.

The company's position was that all non-supervisory personnel in all departments, except plant, should be given an opportunity to vote. This would include about 1,200 employees of the Traffic, Engineering, Commercial, and Accounting Departments.

During the hearing counsel for the union contended that service assistants and instructors should be considered as non-supervisory personnel and as such should be eligible for union membership.

J. K. Avent, Carolina Telephone vice president who testified at the hearing, described the duties of service assistants, instructors, and supervising clerks as "supervisory."

As such, they would not be eligible for membership in the bargaining unit.

There are approximately 900 female employees in the Traffic Department, which is responsible for the operation of the company's long distance information service.

The decision as to the voting unit, eligibility, as well as the election date, will probably be announced by NLRB officials within the next several weeks.

Don't follow any advice, no matter how good, until you feel as deeply in your spirit as you think in your mind that the counsel is wise.
