**ASCS NOTES**

**GRAZING OF DIVERTED ACREAGE**  
 Effective November 1, 1962, ASCS will permit the grazing of diverted acreage. Mr. O. L. Holland, Chairman of the ASC County Committee, cautioned farmers that this grazing authorization applies to all acreage diverted under the Feed Grain and Wheat Program except wildlife food plots and other special cases. The main objective of the ban against livestock on diverted acres is to prevent grazing that might partially offset the corn, grain sorghums, and wheat adjustment under the program. With killing frost likely by November 1, the main grain-producing area, Holland said the objective of the no-grazing ban would be satisfactorily met by that time. In addition, the important period for protection of the diverted acreage also will have passed in most areas and there is small likelihood that conservation cover would be severely damaged by permitting livestock on this acreage November 1.

**LEASING OF TOBACCO**  
 The transfer of tobacco acreage will be in effect again for the 1963 crop year. The normal yields will be determined from the 5 year period of 1958-1962. Before leasing tobacco acreage with hopes of transferring it to your farm, have the normal yields for the two farms determined at the ASCS County Office. Allotment acreage could be reduced if there is much difference in the normal yields.

Come by the ASCS County Office if you are considering leasing and transferring tobacco acreage and get a determination before making your decision. We will be happy to furnish you with this information. However we will be unable to give this information, until all tobacco books are in and the 1962 yields have been established on all farms involved.

If you are one of these farmers who leased tobacco in 1962, you must remember that the lease was good only for one year. If you plan to lease tobacco for 1963, a new lease must be executed and filed in the ASCS County Office not later than April 1, 1963.

ACP Assistance has been requested for approximately 42 percent of the farms in Duplin County. We still have some funds available to help you with your needed practice. REMEMBER October 30, 1962, is the final sign-up date for requesting a cover crop. We urge you to come by the County Office TODAY.

Mr. and Mrs. Nelson Kornegay and children of Goldsboro and Mr. and Mrs. Bennie Outlaw were dinner guests of Mr. and Mrs. Harvey Baker Sunday at Sarecta.

**This Is The Law**

BY: ROBERT E. LEE  
**Constitutional Amendments**  
 Do the proposed amendments to the Constitution of North Carolina, to be voted on Tuesday, November 6, change the Supreme Court of North Carolina? They only authorize the General Assembly to enlarge the membership from 7 to 9. There are 9 members on the Supreme Court of the United States.

Wherein do the proposed amendments change the Superior Courts? They remain the same as the present, except that regular trial sessions will be fixed by calendars promulgated by the Supreme Court instead of by the General Assembly.

The jurisdiction of both the Supreme Court and the Superior Courts will remain as present.

What happens to the large variety of courts below the Superior Courts? They will be merged into a state-wide system of District Courts.

There is no uniformity in the way the courts below the Superior Courts are run. They vary in jurisdiction, practices, procedures, and in costs. You may violate the motor vehicle code in one county and pay a court cost of \$7.30 and commit the same offense in another county and be required to pay a court cost of \$25.80.

In most counties the justice of peace is not on a salary. In criminal cases he receives no compensation, unless he finds the defendant guilty.

The expenses of running all courts, under the proposed amendments, would be paid with state funds. All judges would be on a fixed salary. The fines would continue to go to the public schools as they have in the past.

District Court judges with special skill or knowledge in certain

fields, such as motor vehicle violations or family and juvenile problems, could specialize in these fields and be assigned to full-time work therein. North Carolina cannot expect to have an improved state-wide system of lower courts unless voters go to the polls on November 6, and vote ballots bearing the words: "FOR constitutional amendments revising the structure and functioning of the Judicial Department of North Carolina."

Research studies show that heart patients can work at many kinds of jobs on an equal footing with work-

ers who have no heart disease. North Carolina Heart Association says. A simple moisture test for skin is to squeeze a handful. If it springs right back it's too dry. If it springs back gradually it's just right. If it remains in a compact mass it is too wet.
