**EDITOR'S NOTE:** Below are authoritative answers by the Veterans Administration to some of the many current questions from former servicemen and their families. Further information on veterans benefits may be obtained at any VA office.

**Q —** I dropped my GI insurance right after getting out of service in 1945. Why can't I obtain insurance under the new law without having to prove that I either have a service-connected disability or am not able to obtain commercial insurance because of disabilities not due to service?

**A —** The present reopening of National Service Life Insurance is limited. The legislation enacted by Congress specifically limited the purchase of new insurance to those two categories.

**Q —** I have heard of a number of states which authorized a state bonus for veterans. Why hasn't the Veterans Administration in Wisconsin authorized such a payment?

**A —** The payment of a state bonus is authorized by the individual states, and not by the Veterans Administration. It is up to each state to determine whether they will authorize a state bonus for their veterans.

**—** I am a World War I veteran and am receiving pension and aid and attendance benefits under the old law in the monthly amount of \$135.45. Would I be entitled therefore to medicine and drugs at VA expense?

**A —** No. You would be entitled to medicine and drugs at VA expense only if you were receiving aid and attendance benefits under the new pension law. You, of course, have the right to elect under the new law.
