

Bystanders are those who do the job better. The appearance of wealth keeps many people poor. Time must be a servant, not a master. One's destiny is based on one's character.

Can Provide Progress Plans

The State of North Carolina can provide the means for progress, Governor Dan Moore says, "but the effectiveness depends entirely on how well our COMMUNITY and county leaders make use of them. Leadership will determine whether we succeed or fail in seeking the development of the states resources. Our efforts to preserve the free enterprise system cannot be overdone.

All our effort for economic development are geared so that the state and local partnership both public and private will work together, in partnership," he said, that the Piedmont Crescent planning program was established on that basis.
