

Religion In The Here And Now

By REV. NORVIN C. DUNCAN

About twenty-six years ago a young lady expressed to this writer her wish that she could pass on and discover what was on the other side of death. My reply was that as I had not even begun to scratch the surface of this life, I would like to stay around awhile and get acquainted with this marvelous world that God made, and which spelled out so much of God. That afternoon I went into my backyard and discovered 272 different kinds of plant life, and I knew that if I followed the total history of anyone of them it would take me to the ends of the earth and back again. I went into my study and wrote the following:

I am a part of all that I survey,
And thus akin to PEOPLE,
PLACES, THINGS.

Some part of each borders
life's highway
In measured gifts of what
each body brings.

I touch a life and that life
touches mine...

Adult Swim Class Plans Incomplete

Plans are still incomplete concerning the adult swim classes at this time. Earl Shoaf, recreational director, said today that there have not been enough adults to register to justify teaching the class.

Any adults who may be interested in enrolling are asked to register this week and if there is sufficient interest, a class will begin next week.

If there is no additional registrations by the end of the week, the adult class will not be held.

Marlene Gwaltney Feted At Shower

Miss Marlene Gwaltney of Mocksville, bride elect of Harold Betcher, was the honored guest at a lingerie shower Saturday, August 1, 1970 at the Church of God parsonage, Coolee.

The shower was given by the Willing Workers and Miss Gwaltney's Sunday School Class. Chicken salad sandwiches, cookies, potato chips, pickles, mints, and cokes were served to the 21 guests.

Mrs. Robert Gwaltney and Mrs. Reese Betcher, bridal mothers, were honored guests.

Miss Gwaltney and Mr. Betcher will be married August 8th at the Church of God, Coolee.

Rowan Tech Participating In Big Project

Rowan Tech is participating in a nationwide project of informing returning servicemen of the educational opportunities in technical institutes, C. Merrill Hamilton announced today.

Many veterans returning home from the armed forces are unaware of the educational benefits and opportunities available to them under the "G.I. Bill."

Rowan Tech has a staff of qualified counselors who can assist the veteran. Veterans can attend Rowan Technical Institute for educational benefits. All curriculum programs offered by Rowan Tech are approved by the Veterans Administration.

Interested veterans should contact their local Veterans Service Office or the Dean of Students Office at Rowan Tech.

Hillard Family Committee Meets

A committee appointed at the Hillard (Hellard, Hilliard) reunion July 26 at the Coolee Recreation Center, met Wednesday night at the home of Mr. and Mrs. James B. Foster in Coolee.

The committee approved the motion for the Hillard family reunion to be held each year on the last Sunday in July.

Each smallest part of matter or of soul,

Touches some other part and travels round

The world of man and things until the whole

Is filled with life and love to utmost bounds."

How can anyone deny the existence and nature of God when His world is so full of Him: See Romans 1-20.

Miracles Never Cease

After boasting of his prowess as a marksman, the hunter took aim on a lone duck overhead.

"Watch this," he commanded his listeners. He fired once and the bird flew on.

"Off with your hats, men," he said with awe, "you are viewing a miracle. There flies a dead duck."

ALONG THE SOUTHERN

WHALE TALE. If a whale can't swim, he travels most economically by Southern Railway. The American Museum of Natural History found this out when they had to ship a 2-ton, 92-by-28-foot fiber glass Blue Whale to New York City.

The cost of using ordinary boxcars would have been prohibitive. Solution: our 60-foot boxcar designed for big-load economy. The whale model was shipped in 15-foot pieces and arrived in New York safe and sound.

FAST FREIGHT. Southern has a way to get freight where it's going as much as a day earlier. How? Trains bypass busy intermediate terminals and keep the same locomotives all the way—even over the tracks of other railroads. We have three through trains now and plan to add more. The faster the freight, the better shippers and their customers like it.

BREATH CHECKUP. We're concerned about air pollution just as you are. That's why we put every locomotive through a checkup and maintenance every month, and use only high-quality, clean-burning fuel. Of all the widely used forms of transportation today, trains give off the least pollution for what they carry.
