CHARLEY BROWN IS A GIRL!!

For many months now "Charley Brown" has been a part of Mrs. Hayden Benson (Marlene) of Edgewood Circle, Cooleemee. Marlene is the editor of the Cooleemee Journal. Infanticipating "Charley Brown" was the name Marlene and her husband tagged to their little tax deduction.

Tuesday, at 11:20 a. m. the population of Cooleemee, Davie County and North Carolina increased as "Charley Brown" put in an appearance.

But Charley Brown was a girl weighing 8 lbs. And Traci Lynn Benson, age 5 1/2, has a little sister.

Tower To House Burlington Equipment

Since the announcement in May by Burlington Industries that a small manufacturing operation would be located at the Cooleemee Plant, there has been considerable activity in receiving and installing equipment. To the casual passerby this has not been evident until the past few weeks with the construction of the 90 foot tower, which rises above the existing structure. This break in the skyline is a clear indication of the even greater work being done within the former Finishing Plant where the new operation is located.

Burlington contacted Mr. Earl Guss, plant personnel manager, and requested him to give information as to the plans for hiring and schedule of start-up for the plant. He said the Maintenance Department has been staffed; although, this is being reconsidered constantly as the work progresses. Fur-

thermore, machinery installation is reaching a point that machinery operators will be hired by October 5, for training in the operation of the

main production unit. Additional hiring will be done in October and November for the warehousing and waste cleaning areas.
