Sanitary District Favored

County Commissioner Buddy Alexander said Monday there have been more than enough Cooleemee property owners who have signed the petition in favor of organizing a Sanitary District here.

All streets in the community have been canvassed, with the exception of Davie, part of Duke Street and North Cooleemee. Although enough signatures have been acquired, Alexander said they would complete the town canvass for signatures this week, giving everyone a chance to sign the petition.

In case where the residents were not at home at the time their street was canvassed, Alexander said that they would not call on them again. It seemed unnecessary since they had more than enough signatures in favor of the issue.

The petition will be presented to the Board of County Commissioners at their regular meeting on Monday, December 7th.

The petition on organizing a sanitation district here will be presented to County Commissioners at their next scheduled meeting for approval.

If approved, the petition will be presented to the State Health Department for their approval, and also, at this time a date will be set for the Public Hearing by the Health Department.

County manager John Barber said this week that prior to the Hearing, it will be advertised for four consecutive weeks in the local papers giving the time and place for the hearing.

The State Board of Health will take final action at their meeting in early February. Upon their approval, the County Commissioners will appoint three board members for the first term. Barber said that following the first term of office, the board members will be elected by the people.

The First Thanksgiving

In England the people were called Pilgrims. The Pilgrims sailed across the sea on a big boat and met the Indians. The Pilgrims got off of the boat. The Indians showed the Pilgrims how to make cabins and grow corn. The Pilgrims had harvest time. They called it Thanksgiving and they thanked God for their food.
