Mr. E. L. Eason, a prosperous farmer of near Lizzie, Greene county, was in to see us recently and while here showed us a five dollar bill which was found by his wife in one of his shirt pockets shortly after it had been boiled and wringed. Mr. Eason had placed the bill there some day while he was wearing the shirt and had forgotten about it. Fortunately the bill came out all O. K. and had a much cleaner appearance than before.

Those of you who have city lots in Farmville and are not going to build on them should at least consider the little fellow with the flat purse and offer it for sale at a reasonable price so that he may improve it. You should do one or the other, if you have the town's welfare at stake.

How do you property owners expect Farmville to grow and continue to prosper if you continue to let your lots remain uncovered by a neat cottage or nice residence. Build houses; that Farmville's crying need. No town in the state its size has as many families boarding as has Farmville. It's a case of necessity or move away.

The readers of this paper will be pleased to learn that there is at least one broad-based disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
