Pains and Aches Caused by Kidneys

Many women attribute ailments and suffering to some disease peculiar to their sex, when often the pain and misery is caused by weak or deranged kidneys. Housework, office work or factory work may start the trouble, and dizzy spells, stiffness under eyes, sore muscles, stiff joints, discolored or scanty urine, sleep disturbing, bladder ailments, rheumatism or diabetes may result. When the kidneys are strong and healthy they filter out from the blood all poisonous waste matter. When they are sluggish or overworked they need medicine to clean them out and invigorate them. Foley Kidney Pills are prepared expressly for the purpose of eliminating all poisonous substances and uric acid that lodge in the joints and muscles, and to cleanse and strengthen the kidneys. Thousands of men and women in all parts of the country testify to the wonderfully satisfactory results they have had from taking Foley Kidney Pills.
