The First Principle of Good Health

One great medical authority declares that sluggish bowels are the cause of more than half the ill that afflict mankind. A constipated condition quickly affects the liver and other organs, so that indigestion and constipation are soon followed by biliousness, headaches, chronic bad breath and a generally disordered condition of the system. Foley's Cathartic Tablets are an ideal remedy for their action is wholly gentle and thoroughly cleansing, without griping, nausea or inconvenience. They invigorate and strengthen the bowels and have a good effect on the stomach and liver. J. L. Laver, Greenville, S. C., writes: "For a long time I suffered from constipation and liver trouble. I had resorted to many remedies, but failed to obtain any relief. I finally secured Foley's Cathartic Tablets and am pleased to state they have cured me. They are the finest cathartic I take. I have never used and their effect is quick and sure."
