

(By Clarence Poe) I beg space in your columns, Mr. Editor, to present a subjest Questioned by a newspaper man, of the utmost importance to all Count Bernstorir said:

ton crops is going to be worth exception. You may say for me \$750,000,000 to the men who that I am sure that within a fortown it pext spring, but it is worth only \$500,000,000 to the producters at present prices—and it is to state at present prices.
and permanentity settled, and the mations will be more friendly that the united energies of present to me to be clear.
b. Colton, even though the tome to be clear.
c. Colton, even though the setting on the market, is still seling on the basic of prices fixed by last year's 17,000,000
bale crop.
b. These prices must soon be atjusted, however, to fit the conditions of a 12,000,000-bale crop. own it next spring, but it is worth night all supposed difficulties be

ditions of a 12,000,000-bale crop this year's crop will leave a 3,000,-for probably only a 10,000,000 or 000 bale deficit-to, be drawn The facts are, however, that for middling. As briefly now, as chean arguination of the surplus. As briefly now, as chean arguination of the surplus of the s

ment will permit, I with to point the view of many experts, inout and emphasize the ruth of cluding so conservative and these slatements.

I. The World's Demands Justify Twelve Cents. New York Journal of Commerce which has just declared that just

Assuming even a 12,000,000 bale vield of Southern cotton this year (and it will probably be heast this 3,000,000 bales short of the world's conservatively esti-mated consumption during the coming twelve months. That is to say, the world will concurned every poind of this year's crop within the reach of present Co.
