

IN AND ABOUT THE CITY

Many a man gets along in spite of his shortcomings.

Forgive your enemies and you can sometimes save yourself a lot of trouble.

Who's in a name? The civil engineer doesn't always shine in polite society.

It doesn't do much good to hold the key to the situation, if you can't find the keyhole.

Those who dance must pay the piper. Also sometimes those who merely look on.

The people who are most eager to keep money in circulation are those who haven't any.

In teaching the young idea how to shoot is necessary to give him instructions in trigonometry.

A fellow can always tell when he is in love," says the Critical Bachelor. "He looks like making a fool of himself."

Wigwags—"Let me give you a bit of advice, Gussler; it's time for you to take a brace." Gussler—"Thanks, old chap, I've just had a brace."

Tommy—"Pop, what is tact?" Tom's Pop—"Tact, my son, is the graceful art of making other people think they know more than you do."

"To him that hath it shall be given," quoted the Wise Guy. "I don't know about that," said the Simple Man. "The man with the very best digestive apparatus may have nothing to digest."

ONCE-OVERS

Brace up.

If you let your knees double up, the night's going to station you.

The test of a real man is the way he stands up when everything is against him.

"Prove up" to the world; better yet, "prove up" to yourself. Other men are doing it.

It requires no strength of character to go through the sunshine of life. Any weakling can do that.

Everybody has burdens to carry. You are not the only one who feels at times that the load is more than can be borne.

Fight as if some material load had dropped upon you. Losing heart because of difficulties will make you lose out for sure.

HOT WEATHER HINTS

- Don't eat anything.
Obey it thoroughly.
Don't drink ice water.
Soil it.
Let your wife have her way.
Give your thermometer to your enemy.

Avoid excursions, vacations, chaperones.

Avoid strange dogs and your wife's relations.

Don't discuss the following: Heat records, immigration, tariff reduction, socialism, minimum wage, gas bills, franchise graft, the trouble, new thought, cubist poetry, evildoers and reformers—Kansas Industrialist.

EVER NOTICE IT?

The comfort some women find in wearing a pair of slung women's feet in a bag of tin.

Give a sympathetic woman a handkerchief and a rocking chair and she is prepared to cry with the world.

The morning in which a woman who wears an automobile says "I do not approve of using powder" indicates that it is the private belief that any woman who wears powder cannot murder in her own mind.

WOMEN WHEN DILIOUS? NOT STOP! MAKES YOU SICK AND SALIVATES

What's the use? It makes it... Can't you laugh it off?

There's my granma—Go to any drug store and get a 50 cent bottle of Dr. Ross' Laxative. Take a spoonful and it'll do you good. You'll feel right up and down you feel fine and healthy. I want you to be back to the store and get another bottle. You'll feel right up and down you feel fine and healthy.

The BIG Warehouse ON MAIN STREET

OWNED and OPERATED by the Farmer, for the Farmer, with the Farmer.

We ask the farmer to help the farmer. You will help the farmer make money thereby building up the country as well as the town. Our business has exceeded our expectations and we are growing every day.

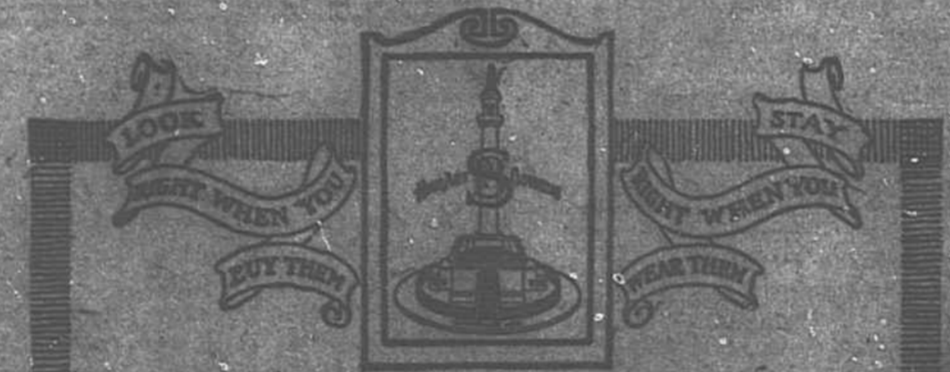

This is a big business, by your co-operation we can make it a larger business. Appreciation of your patronage is shown by Townsend's hard work.

Yours respectfully, TOWNSEND'S TOBACCO WAREHOUSE CO.

P. S.—Being unable to get out to see friends and patrons, I ask you to get in early with your tobacco, so we can get you unloaded in time for sale. Prices are much stronger, several of my customers averaged as high as twenty cents for large loads of tobacco.

APPRECIATING YOUR PATRONAGE

Your Friend, C. R. TOWNSEND Farmville, N. Carolina.

Time deals lightly with HIGH ART STYLE CLOTHES

and—there is a reason, "High Art" Style Clothes

are built to last and the building materials are genius, all wool fabrics, finest trimmings and hand tailoring—lots of the latter.

If you're thinking "style," value and "service"—think "HIGH ART"—you'll never be accused of having a "wrong thought."

We are thought more of for these clothes we sell. Arrangements are now complete. Call on us while you're thinking of it.

Cole's Original Hot Blast

is a double stove—a heavy durable heating stove slipped inside of the powerful radiating body which radiates off the heat.

The Many Feet of Leaking Joints made temporarily tight with stove putty explains why imitation hot blast heaters are inferior to other fuel saving devices.
