PRESIDENT WILSON CAPTURED BY DAN CUPID

Washington, D. C. Oct. 7.—All of Washington and country as a whole was intensely interested in the announcement last night of the engagement of President Woodrow Wilson to Mrs. Norman Galt, a charming Virginia woman. The wedding will probably take place at the home of the bride-elect in Washington some time in December though the date has not as yet been fixed.

Great State Fair.

October 18 23, mark the dates down in your memory as four gala days of festivities—the week of the great State Fair at Raleigh. Scores upon scores of wonderful events are awaiting you in the Capital City—marvelous attractions that have never been offered at any previous Fair. The agricultural and industrial exhibits are interesting and instructive, the Midway, one great line of unusual attractions, and the free attractions the most marvelous ever shown at a South Atlantic Fair.

Headline them all is the thrilling airplane spectacle copied from the actual destruction of a German Fort by a French aviator on the European battle front. During Captain Worden, in his monoplane, 2000 feet in the air drops bombs after bombs on a solid fort below, the fort turning the fire with steam-trap shells, which burst around the airplane high in the air. For many minutes the battle rages until the fort is destroyed in a cloud of dust and smoke by a bomb from the aeroplane.

Of the scores of other free attractions there are the human loop, the shooting bears, chair balancing act, Cotton's medley, Donkeys and many others. Famous Miss Collier, in 100 foot ladder, will dive in low tank of water. For those who are interested in agricultural welfare of the State, there are the corn and flax judging contests, the toy clubs and competitive city exhibits, boys' corn and pig clubs, boys and girls' club, free motion picture of all diseases of poultry, cattle, period types of cattle, many other interesting and active things.

This year will see another addition that bids fair to excite the imagination of every town in the State. This year's feature poster reads: "Industrial and Agricultural Exhibits of the State".

State Wide Debating Union.

Chapel Hill, N. C., Oct. 7.—The query which will be discussed this year by the schools having membership in the High School Debating Union of North Carolina is: "Resolved, That the United States should adopt the policy of greatly enlarging the Navy." A bulletin of sixty or seventy pages containing outlines and arguments of this query and references to sources from which further material can be secured will be sent free of charge to all schools which are members of the Union. This bulletin will reach the schools not later than Nov. 15th.

Every secondary and high school in the State is invited to become a member of the Union and participate in the contest of 1916. Every school that enters will, as in the past, be grouped with two others for a triangular debate, each school putting out two teams, one on the affirmative and the other on the negative. The schools winning both debates will be entitled to send their teams to the University to compete for the State championship and the Aycock Memorial Cup. The triangular debates will be held throughout the State the latter part of March and the final contest at the University early in April. The exact dates for these contests will be decided upon later.

Since its inauguration three years ago by the literary societies and the bureau of extension of the University, the High School Debating Union has met with splendid success. Three comprehensive State-wide debates have been held and schools and communities alike have been benefited by them. Last spring the State-wide contest was participated in by 250 schools and their student debaters, and it is a safe estimate that fully 50,000 pupils took part in the discussion over the Sinn Féin question on subsidies for the merchant marine. The committee hopes that this year every school of secondary course in the State will enroll in the Union for the discussion of the enlargement of the United States Army.

Wilson's Secretary at the State of Chapel Hill will be glad to hear from you or to visit with you at the debates.

SCHOOL OPENED WITH 255 ON ROLL.

Every one is interested in the Graded School because it is the people's school, for that reason we are glad to let our readers know that our school opened Monday with an enrollment of 255 as against 190 for the corresponding day of last session which is an increase of 65. This is very pleasing to us but Supt. McLean tells us that there are still others to enter and he hopes before long to see the enrollment at least 20 above the total enrollment for last session. There were 32 little fellows who entered school for their first time and still several to enter before the 15th of November, which is the time limit for them to enter since the Board has ruled that those who enter the first grade must begin before that date.

Another interesting feature about this session is that there are two pupils who are taking the work in the fourth-year of the high school and will receive their diploma instead of certificates if they finish the work. We are glad to see this, for we believe it will be the means of others taking the work in the future.

The music class is at present the largest they have ever had and we predict for the pupils rapid advancement under the pains taking tutoring of their teacher, Miss McGee.

Women's Missionary Society Holds its Regular Meeting.

On Tuesday afternoon the Women's Missionary Society held its regular meeting with Mrs. J. I. Morgan. After the devotional exercises led by Mrs. W. Zarker, a most interesting program was given. "The Unity of Missions," read by Mrs. J. W. Lang, presented in a beautiful way our "oneness in Christ." This was followed by a very touching paper written by our minister's wife at Goldsboro, and read by Mrs. R. A. Field. It was entitled, "Woman's Relation to Missions." Mrs. J. V. Johnson then read a very interesting article on "Real Self-Denial," after which Mrs. J. T. Thorne read a beautiful little poem. "If we only had the money that belongs to the king." Mrs. J. W. Lovelace read an article telling of the organization of a Mission Society at the State Sanatorium at Aberdeen.

After the Literary Program was over, the society was opened for business. After the reports of the different officers, one new member was added to the roll, making a membership of twenty seven.

The Cox Soc. reported that a list of the clothing for the Orphan, which the Society had provided, had been received. A committee was appointed to take charge of it. An announcement from Rev. and Mrs. Love of the arrival of a baby girl was also read to the Society, and a beautiful card to be sent from the Society. The program was then discussed, and the President announced the committees for same. Mrs. Alice King then presented a beautiful quilt to the Society, and Mrs. Lovelace asked that we have the "Quilling Party" at her home real soon, together with an old-time "candy-pulling" to this we all heartily consented.

Business being ended, the benediction was pronounced and the Society adjourned, to meet next with Mrs. A. C. Monk.

A Thought For This Week.

The better we understand life, the more we come to the realization of the fact that happiness is a duty. It signifies that we are working in harmony with the laws of our being and with the laws of the universe about us. The attitude that leads to happiness, is also a benefit to others. As cheerfulness reduces doubt, brings in others, so friendship inspires and unifies happiness. We communicate this joy to those about us. The officer could look in upon them to us again. As happiness is a gift, so love and sympathy inspire love and sympathy in others, such as the fruit of cheerfulness and happiness, to give the world a better world.
