EVERY TIME WHEEL IS TURNED 4000 MEN GALLED

Washington-Drawing of lots for the selective draft not only will determine what men ere to be caled to the golors in the first war army, but will show in what order the others regispared wil be liable for service when later armies are organized.

It was revealed that a plant of diaming will be followed under which a delthite place in th ewaiting lists will he given every one of the millions who registered. Those standing at the heating of the list in each county of city district will be called before the first examination reards and then the obligation will past on down the line as long as men are needed.

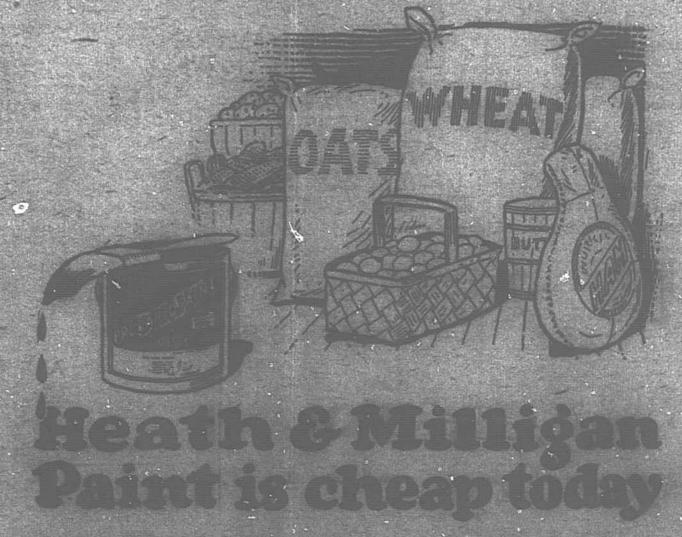

This does not mean that a separate name or number will be drawn for every one of the country's 9,800,000 registrants. In fact, every number drawn, under the theory of the plan, will represent more than 4,000 men, one for each of the registration district.
