T. E. JOYNER, Mgr.

FARMVILLE, N. C.

SOME SAFETY "DON'TS" FOR MOTHERS.

- Don't dry-clean in the house.
- Don't get off a car backwards.
- Don't touch an electric light with wet hands.
- Don't lock up the children alone in the house.
- Don't leave broken glass, crockery, or tin scattered around.
- Don't allow children to coast down inclines into the street.
- Don't allow children to hold onto moving vehicles.
- Don't allow children to jump on motor-street.
- Don't put pencils, money nor pins in the mouth.
- Don't use coats without springs and back-support.
- Don't use a thermos bottle for the baby's milk.
- Don't rely on others to observe traffic rules; use your head.
- Don't value your time more than your life at crossings.
- Do label all medicines. Keep poisons out of children's reach.
- Avoid unsanitary soda fountains.
- Watch traffic signs.
- Cross the street at crossings only.
- Avoid crowded and poorly ventilated places of amusement.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of creased white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon pulp through a fine cloth so the lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, millium and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of creased white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

LANE LAND CO.

Will Sell Your Land

Our sales all have been very satisfactory to owners.

We Sell, Buy and Exchange

Our Business is Land Business.

We are continually on the lookout for purchasers of small farms. We all have several agents on the lookout to purchase small farms for our home seekers.

Before buying or selling, you are cordially invited to call at our office and talk the matter over with us.

We have on hand first for sale mortgage on real estate that will pay you better than banking interest.

FRIDAY, SEPTEMBER 14, 1917

Kickers are desirable only in football season.

Of the making of football cripples there is no end.

Evidently Cupid never heard of the eight-hour working day.

Buying something for nothing always has been poor business.

Anyway, why does a woman need to carry a gun with the hatpin handy?

"Moving day" in the trenches is un-derstandable in a military sense.

Early rising is incumbent on the army aviators of Europe in more ways than one.

Speaking of the "last war," the only person who can do so authoritatively will be the last man.

After the war there may be a demand for those gas-proof masks from hen-pecked husbands.

News from the seat of war becomes more and more like a detailed description of a surgical clinic.

One writer prophesies that the voice of Egypt will soon be heard. Will it be "Baksheesh"?

Of course a burglar would make a good assessor; see how expert he is in finding personal property.

After this war there are likely to be several bar sales in statues of heroes that couldn't hang on.

Pounding sand into a rathole seems an easy task compared with keeping the Culebra cut free of slides.

If that French armor proves to be practicable the guides in the north woods should be equipped with it.

Censors of all nationalities admit that there is terrific fighting going on, but disagree as to details.

Why should we have nut trees along our highways? Won't other trees stop automobiles just as well?

Sometimes a pouter pigeon looks almost as important as the chairman of a state legislative committee.

Usually, when the bill comes, you are compelled to realize that the green grocer isn't green at all.

It sometimes happens that a man with a bad reputation is envied by other men because of the way he got it.

Those gas masks from the French front might find a sale here among people who cannot stand cigarette smoke.

A Cleveland lawyer took 37 minutes to ask a witness a question, and then probably insisted on a "yes or no" answer.

Some women have too much sense to yearn for model husbands. An average sort of animal is good enough for them.

But the average man doesn't dislike to ask another to loan him money as much as the other dislikes to have him do it.

There are laws for the protection of game, but isn't it about time someone was proposing one for the protection of hunters?

The Game That Does Not Affect the Head because of its toxic and laxative effect. LUXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or tired head. Remember the full name and look for the signature of E. W. GROVE, JR.

ONLY 10 PER CENT OF ALL ACCIDENTS UNPREVENTABLE

CARELESSNESS, THOUGHTLESSNESS, UNDUE HASTE, AND IGNORANCE CAUSE MOST ACCIDENTS.

Statistics compiled by one of the leading life insurance companies of America show that in the United States during the year 1916 there were approximately 34,000 fatal accidents; 600,000 serious injuries, and 4,000,000 other injuries. These figures alone are appalling, but when it is known that approximately ninety per cent of these accidents were preventable the realization begins to dawn on one that an awful toll of life and limb is being paid to grim "accidents," and the time taken toward eliminating this needless human suffering.

Of this enormous number of accidents over one-half have been classified as "Industrial" accidents or accidents occurring to employees of the manufacturing industries and public service corporations throughout the country.

Of the great number of industrial accidents possibly 50% could have been avoided if workmen had not been careless. Another 25% could readily be attributed to "thoughtlessness" while an additional 15% was caused by "undue haste" and "ignorance," thus leaving only about 10% due to unavoidable and unpreventable accidents.

Investigation of accidents reported during the past five months, has revealed the fact that the greater part of these accidents could have been prevented. Disobedience of orders, willful neglect, carelessness, and bad practices are factors in a large majority of cases, and inasmuch as untold suffering and a great economic loss are occasioned by these factors, it might be worth while to cite a few accidents which have occurred in order to show to what extent care and thoughtfulness are needed to reduce this awful toll which is being exacted as the price of carelessness and ignorance.

The following are a few typical cases in which the above mentioned factors caused the accidents and which represent the classes of accidents which could easily be prevented if every person concerned would be careful:

Reckless Driving.
Three persons lost their lives when

a wild driver after racing with a passenger train attempted to cross in front of the engine because he had a little distance on the locomotive.

Four persons were killed when an automobile stopped on one line of a double-track railroad while a train passed on the other. As soon as the train had passed another train coming from the opposite direction struck the car with fatal results.

Disobedience of Orders.
At a rock quarry an employe, in direct disregard of orders, rode on a truck loaded with stone. This truck was allowed to run down an incline by gravity, and instead of walking behind as he had been told to do, the employe climbed on a truck and in jumping got off under the wheels. His left ankle was broken and in addition he was badly bruised, so that he was compelled to remain away from work for many weeks and, to lose considerable in wages, besides enduring a great amount of suffering.

Taking a Chance.
An employe of a certain plant had occasion to examine a motor. Instead of making the examination from the outside of the guard rail, which in this case was possible, he evidently climbed

or stepped over the guard rail and was caught by the driving belt. He was immediately whirled to his death. Had it been absolutely necessary for this man to go inside the guard rail, his first act should have been to stop the motor, thereby removing all possibility of an accident. The chance taker eventually gets caught.

Neglected Wounds.
The following accidents demonstrate the necessity of the prompt reporting of all injuries, no matter how trivial, for attention and treatment. Serious cases of blood poisoning often occur from neglect, and not only result in the loss of dollars and cents but also cause great suffering, with perhaps the loss of a finger, hand, leg or even life.

An employe in a mill while changing rolls caught his finger on a sharp edge of a bolt and failed to have it attended to. As a result the wound became infected, necessitating the absence of the injured man from his work for three weeks.

Improper Use of Freight Elevator.
An employe in a warehouse was ordered to get some material from the third floor. It was necessary for him to use the elevator. Lifting up the safety gate he started the elevator and when it reached the floor on which he was standing he attempted to jump on while the elevator was in motion. His foot slipped and his body was caught between the safety gate and the floor of the elevator. He was instantly killed. No person should attempt to step on or off a moving elevator. Repeatedly accidents with serious and fatal results have occurred in this manner.

"It Shorely is Good"

Start the day with a cup of good, old Luzianne. There's cheer in its very aroma—spunk and go-to-it in every swallow. You'll like Luzianne. Buy a can today and, if you don't agree it goes farther and tastes better than any other coffee at the price, tell the grocer and he will give you back exactly what you paid for it, without argument. You simply can't go wrong on Luzianne. Ask for profit-sharing catalog.

The Luzianne Guarantee: If, after using the contents of a can, you are not satisfied in every respect, your grocer will refund your money.
