PRACTICAL COURSES IN AGRICULTURE FOR FARMERS.

Dean C. B. Williams says that active arrangements are being made to put in final shape the short course in agriculture for farmers that are to start on October 30 at the State College, Raleigh, and continue for sixteen weeks. These courses have been especially designed to give those who come to the College for this short practical instruction, information along different lines of farming practiced in the State that may be put into use on the home farm by those who come.

The early farming in North Carolina, under pioneer conditions of society, was a comparatively simple operation, but in this day and time, as farming has become a more complex and commercial enterprise and when crops are raised on a large scale for competition in world markets, the well-informed and alert farmer, other things being equal, is the one who is going to make the most out of his farming operations. The courses, as arranged, will no doubt greatly aid those taking them to become more modern and business like in their farming operations than they could otherwise possibly have been.

Opportunity will be afforded to give the busy men on the farm, both old and young, to spend two to four months at the College, studying the different branches of farming they have especial in, and do so at a season of the year when work on the farm is least pressing. Those who come will be brought in close personal touch with the specialists of the College, Experiment Station and Extension Service, and thereby be given an opportunity to become acquainted with the work that is being done at the present time in the interest of those engaged in farming. Those attending the course should become better fitted for taking up their life work by having secured a better and more intimate view of agriculture in general and a higher efficiency and knowledge in their chosen fields of farming.

Courses are to be offered in field crops, in live stock, including dairying, horticulture and in poultry. Arrangements have been made whereby special lectures on different phases of agriculture will be given by the different specialists of the College, Experiment Station and Extension Service.

Many farmers of this county and of other counties in the State should make every effort to arrange their farm work so that they can avail themselves of this splendid opportunity of visiting the College and securing practical information that is to be offered there in the short courses in agriculture that have been arranged especially for the busy farmers of the State.

Answering a call for music for the Asheville boys at Camp Jackson and Camp Sevier, citizens of Asheville in the past two days have contributed three phonographs, and a countless number of records to be sent the boys at the two camps. The idea was started by a letter from Captain Adams, commanding the Asheville boys at Camp Jackson, in which he suggested that the boys would like to have a "music box" to while away the long hours.

Food Administrator Henry A. Page enthusiastically welcomed the announcement of the organization of the "War Mothers" for service at home in carrying out the program of the food administration. "I desire to suggest through the press that every mother of this state attach herself as a volunteer to the school district committee which will have charge in her district of the food pledge campaign, October 20-25th. No one will be able to resist their appeal, and the work that will be done during that campaign will mean the bringing back of thousands of their boys who might otherwise find their last resting place under the green sod of France."

David A. Kanipe, of Marion, said to be the only living survivor of Custer's Massacre, has cheerfully given up all three of his sons for Uncle Sam's army to fight Germany. Nothing seemed to help me until, one day, I decided to
