FRIDAY DECEMBER 7, 1917

The electric sand sifter will outwork ten men, is portable and takes up little room.

Seventy per cent of the American people use electricity in some form every day.

Our exports amount to about 2 per cent of our business under normal conditions.

Baron Hans von Berlepsch's "bird paradise" in Thuringia is one of the wonders of the world.

A new gas lamp post has a clock-work attachment which turns the light on and off at appointed hours.

All mattresses and pillows made hereafter for the United States government will be filled with kapoc, a vegetable fiber having great buoyancy.

The 30,000 waiters and kitchen attendants of the New York hotels and restaurants are being licensed. To do so they must pass a physical examination.

If statistics are to be believed, the birthrate in the United States, in Great Britain and in most other civilized lands is being steadily, though slowly, lowered each year.

The famous Teh King Cheng porcelain factory, which since the year 1396 made the finest porcelain in China, and which was destroyed in an uprising a few years ago, is to be reopened with government assist-ance.

From 1790 to 1870 the actual work of gathering census statistics was performed by United States marshals and the enumerations varied in length from 10 to 18 months. In 1880 there was adopted the plan, followed at all subsequent censuses, of having this work done by a large body of enumerators under the direction of supervisors.

The statistics that have for a long time been the basis of the United States census are now being gathered by a large body of enumerators under the direction of supervisors.

Sarah Bernhardt—I have fought with time and proved myself stronger.

Henry Claws—Business improvement in the United States is surpassing all expectations.

Mr. Dooley—All th' wurld that hasn't anything better to do is playing auction bridge.

Charles M. Schwab—The United States is to be the industrial and financial leader of the world.

George Bernard Shaw—Nowadays we are expected to dress and eat as the weak and boudiers do.

## Why I Believe in Nuxated Iron

A Strength-Builder for the Nation

By H. H. HANSEN, M.D.

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is conservatively estimated that over three million people annually are taking it in this country, alone. It has been highly endorsed and used by former United States Senators and Members of Congress; Physicians who have been connected with well-known hospitals have prescribed and recommended it; Monsignor March, a prominent Catholic Clergyman, recommends it to all members of the Catholic Church. Former Health Commissioner Wm. H. Keay, of Chicago, says it ought to be used in every hospital and prescribed by every physician. Sarah Bernhardt—the "Divine Sarah," the world's most noted actress—has ordered a large quantity sent to the French soldiers to help give them strength, power and endurance.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon, Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. N. H. Hornsline, for ten years Physician in the Department of Public Health and Charities of Philadelphia, says that tests made with Nuxated Iron on a number of stubborn cases where other tonics had failed absolutely convinced him of its remarkable and unusual power.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how fast you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Nuxated Iron, which has been used by former members of the United States Senate and House of Representatives, and other prominent people who were successful in business and in the world, and who were also well known as athletes and whose iron constitutions are widely recognized, is a most valuable and reliable remedy. It is a most potent remedy in nearly all forms of debility as well as in the various iron deficiencies of the system. It is a most valuable and reliable remedy in nearly all forms of debility as well as in the various iron deficiencies of the system. It is a most valuable and reliable remedy in nearly all forms of debility as well as in the various iron deficiencies of the system.

# ACT QUICK---SAVE MONEY

We take this method of advising our customers and friends, who have tobacco yet unsold in their pockhouse, to get same ready and bring it on to

## MONK'S WAREHOUSE

As early as possible.

Tobacco is selling as high with us now as could possibly be expected, and to wait much longer may mean a loss of money.

Your friends,

## Monk & Hobgood
