

### Would You Believe It?

**A** THERMOMETER on the wall, head high, and one on the base board of your room will show 10 to 20 degrees variation in winter, in a home heated by the average base burner.

A difference of twenty degrees of heat will turn comfort to discomfort.

Twenty degrees difference is more than enough to give the baby and children severe colds and worse. Heat up this cold floor, this danger zone, with

(With Magazine Feed)

and make it a safe playground for the little ones.

Of easy draft control, it pours out a flood of warmth and comfort, hour after hour.

Every square inch of its highly polished steel jacket and boiler bottom is a heat radiating surface.

Not a particle of heat is wasted. Not a particle is absorbed by heavy, useless cast iron. Nor is there danger from coal gas, that much feared by-product given off by every heater not equipped with Cole's Hot Blast System for consuming gas.

When you buy this heater, you are buying one with a record. You are getting a heater that produces results.

That is the only kind we are selling. Come for yours today.

See that the name "Cole's" is on the front door. None genuine without it.

## NOW COMES THE RECONSTRUCTION

Principal Thing Now Ahead is Conference. Much Work Yet For Navy To Do.

America now turns toward the way of peace. With the military strength of the central powers shattered and hostilities ceased under terms of surrender that preclude a renewal of the great struggle the United States with the associated governments took up the problems of reconstruction.

When or where the final peace conference will be held is not known. It is provided in the armistice terms that the peace conference will be held thirty days thereafter. Owing to the great interests involved, the many governments and national considerations, and the differences to be met in convention such conditions in such a short time may cause an extension of the thirty day limit.

It was regarded as likely that the peace conference will be held at the meeting at Versailles, where the armistice terms were formulated. The separate meetings which will probably be held by the allies will probably decide upon the terms and then the place of meeting defined when the enemy will probably ask for a moderation of the terms.

Military men today looked to the return to civil life of the men mobilized during the past nineteen months. Further induction of men into the military service was checked through the cancellation of all outstanding draft calls.

The United States entering the war last probably will be called upon to do much of the police and guard duty in France and Belgium. Further events in Russia are uncertain and the small forces there may be augmented. Transportation is limited and the embarkation of units will not stop immediately. Secretary Baker has said, although troops to be sent overseas will be medical and similar units.

For the navy also great tasks are ahead. The sea is to be swept of mines, the occupation of the German naval base of Helgoland is a result of the revolutionists seizing the grand fleet may become necessary. Granting that peace may come there will be patrol work to do. Money will be needed to bring the soldiers home and to allow for the completion of projects now under way. There will be another Liberty Loan. The revenue bill keeping upon the people the sum of a billion dollars must be passed. Indirectly the change from war to peace will create as many problems as the change from peace to war. Workers employed in war industries will have to seek employment in other enterprises and wage standards created by the war must be readjusted.

## SOUTH'S STATES THE FIRST OVER

With Full Quota For United War Work

Says a dispatch sent out from New York under date of Nov. 16th:

Southern States were the first "over the top" with their quota of funds in the United War Work Campaign. Overnight returns of \$2,881,441 from seventeen States, received at National Headquarters here, brought the contribution to the fund from the entire country to \$98,483,560 at noon today.

Southern States' subscriptions now total 103 per cent. Eastern States were reported at 80 per cent; Western at 63; Northeastern at 71, and Central at 73.

Millions of dollars are expected to be added to the fund by provisional subscriptions from boards of directors of national banks pending the anticipated passage by Congress of legislation making each State a contributing State.

### CARGO OF SUGAR IS BROUGHT BY FAITH

New York—The American steamship Faith, the largest concrete steamer in the world, launched last March 14th, an experiment in the matter of concrete construction, arrived a few days ago from Cuba with a cargo of sugar.

The war has trained the Germans to be splendid athletes. They will always be particularly good in running.
