FARMVILLE, PITT COUNTY, NORTH CAROLINA, DECEMBER 8, 1918

NO. 30

Pres. Wilson On His Way To Attend Peace Conference.

BIG DREADNAUGHTS ACCOMPANYING THE S. S. GEORGE WASHINGTON WILL MAKE AN EARLY RETURN LOADED WITH SOLDIERS. EXPECT TO HAVE MANY OF THE BOYS HOME FOR CHRISTMAS.

Daniels Authorizes Immediate Reduction In The Navy—100,000 To Be Discharged Soon

MORE OF UNCLE SAM'S HEROIC BOYS RETURN.

New York, Dec. 5.—The British transport Orea, with 1,972 American troops aboard, arrived here today from Liverpool. She is the fourth transport to bring returning soldiers.

The Orea passed the transport George Washington fifty miles out at sea and the following message was wireless to President Wilson:

"Returning troops on the steamship Orea extend greetings to the President of the United States."

UNITED STATES HEALTH SERVICE

Common Colds Highly Catching. It is estimated that there are 100,000,000 of these little ailments in the United States at any one time.

People are beginning to learn that ordinary coughs and colds are highly catching and are spread from person to person by means of droplets of germs laden mucus. Such droplets are sprayed into the air when careless or ignorant people cough or sneeze without covering their mouth and nose. It is also good to know that people have learned something about the value of fresh air. In summer, when people are largely out of doors, the respiratory diseases (coughs, colds, pneumonia, etc.) are infrequent; in the fall, as people begin to remain indoors, the respiratory diseases increase; in the winter, when people are prone to stay in badly ventilated, overheated rooms, the respiratory diseases become very prevalent.

Suitable Clothing Important.

"Still another factor in the production of both pneumonia and other respiratory diseases is carelessness or ignorance of the people regarding suitable clothing during the seasons when the weather suddenly changes, sitting in warm rooms too heavily dressed or, what is even more common, especially among women, dressing so lightly that windows are kept closed in order to be comfortable warm. This is a very injurious practice."

Could Save 100,000 Lives.

"I believe we could easily save one hundred thousand lives annually in the United States if all the people would adopt the system of fresh air living followed for example in tuberculosis sanatoria. There is nothing mysterious about it—no specific medicine, no vaccine. The important thing is right living, good food and plenty of fresh air."

Droplet Infection Explained in Pictures.

"The Bureau of Public Health, Treasury Department, has just issued a striking poster drawn by Bertram the well-known Washington cartoonist. The poster exemplifies the modern method of health education. A few years ago, under similar circumstances, the health authorities would have issued an official but scientifically inaccurate bulletin teaching the role of droplet infection in the spread of respiratory diseases. The only ones who would have been those who already knew all about the subject. The mass in the street, the plain citizen and the many millions who toil for their living would have had no time and no desire to wade through the technical phraseology."

CHRISTMAS ROLL CALL TO PROVE GREAT FEATURE IN RED CROSS CAMPAIGN.

To the people of Pitt county: So great is the faith in the universality of the Red Cross spirit that the aim of the American Red Cross Society is a universal one. It is the hope of that great organization, of which Woodrow Wilson is president, to enroll every American in the land. At that time the American people will express their moral and spiritual support of the armies of freedom in the form of Red Cross membership.

You know what the Red Cross is and what it does, that it is the largest organization of any kind in the world, and the greatest force for good, especially in the black belt of the recent war-torn nations. It is the one bright spot of hope, Humanity's Light.

All persons in the county, young and old, white and colored, are earnestly requested to have a handy dollar during the week when the collectors come around. Do not forget the children. In days to come how honored they will be to have been members of the American Red Cross Society in its battle for humanity.

There are now 2,000,000 of our boys and girls in the service of our country, and their needs are great. The opportunity is here to help them.

People are beginning to learn that ordinary coughs and colds are highly catching and are spread from person to person by means of droplets of germs laden mucus. Such droplets are sprayed into the air when careless or ignorant people cough or sneeze without covering their mouth and nose. It is also good to know that people have learned something about the value of fresh air. FARMVILLE RED CROSS EXTENDS SINCERE THANKS

In closing our work in the warehouse floor the Red Cross of Farmville wishes to thank all who rendered us service in the past. The visiting ladies who so graciously responded to the call, the donors who so graciously contributed to the tobacco, the Tobacco Board who supported us so liberally, and for every courtesy shown us.

MACHINE GUNS TURNED UP ON RIFERS.

Copenhagen, Dec. 5.—Machine guns were used in the morning and afternoon in the streets of the city. Several stores in different parts of the city were plundered.

There were a number of casualties in the ranks of the demonstrators.

After plundering the stores, a great crowd gathered at the food depot, but the "welfare committees" of the city decided to suppress the disturbances without mercy. The mob retreated when the machine guns were brought into play.

Other casualties occurred in conflicts in between mobs and the police throughout the night.

USE THE HANDSOME AND DO YOUR DUTY BY THE PUBLIC

BEWARE TUBERCULOSIS! It is a sneaky, no need to worry if you take precautions in time. Don't despise just a little cough. Don't ignore a little chest pain. Don't neglect a little shortness of breath. Don't ignore a little loss of weight. Don't ignore a little night sweats. Don't ignore a little blood in your sputum. Don't ignore a little fever. Don't ignore a little loss of appetite. Don't ignore a little general weakness. Don't ignore a little irritability. Don't ignore a little insomnia. Don't ignore a little loss of interest in life. Don't ignore a little loss of energy. Don't ignore a little loss of vitality. Don't ignore a little loss of hope. Don't ignore a little loss of faith. Don't ignore a little loss of courage. Don't ignore a little loss of strength. Don't ignore a little loss of endurance. Don't ignore a little loss of patience. Don't ignore a little loss of self-control. Don't ignore a little loss of respectability. Don't ignore a little loss of honor. Don't ignore a little loss of dignity. Don't ignore a little loss of pride. Don't ignore a little loss of self-respect. Don't ignore a little loss of self-love. Don't ignore a little loss of self-esteem. Don't ignore a little loss of self-worth. Don't ignore a little loss of self-respect. Don't ignore a little loss of self-love. Don't ignore a little loss of self-esteem. Don't ignore a little loss of self-worth.

DONATORS TO THE UNITED WAR WORK CAMPAIGN AND AMOUNT EACH HAS GIVEN.

GREAT UPRISING IN BERLIN EXPECTED TODAY

London, Dec. 5 (British Wireless Service)—The political situation in Germany continues to be extraordinarily obscure, says the Amsterdam correspondent of the Daily Express. Everybody else seems to be quarrelling with everybody else and every member of the socialist party is trying to outdo his comrades in the fervor of his republicanism.

Two grave dangers, the correspondent declares, appeared to be confronting the new German republic. One is the separatist movement headed by Kurt Eisner, the Bavarian leader, who is issuing propaganda against the leadership of Berlin and appears to be willing to create a South German republic, including Bavaria, Wurttemberg, Saxony, and several other states. The other danger which the correspondent adds is equally pressing is that arising from the quarrel Berlin military soviet with its majority of extremists and Bolshewiki and the Berlin executive committee.
