LOCALS AND PERSONALS OF INTEREST TO Farmville and Surrounding Sections

Mrs. T. E. Hooker of Greenville was in the city Thursday.

Headquarters for Santa Claus—E. L. Barrett.

Mr. Will Joyner, of the S. S. Wisconsin, is spending several days here with his parents, on leave of absence.

Mrs. J. W. Dixon and son, Master John Wesley, of Raleigh were guests of relatives here this week.

Mr. and Mrs. G. A. Rouse and daughter spent last Sunday and Monday in Nashville, visiting Mr. Rouse's mother and other close relatives.

Read the big display advertisement of Mrs. J. Wells Smith elsewhere in this issue and don't fail to take advantage of the reduc-

tion in prices on the goods this firm is now offering.

See my line of Holiday goods before you buy, as it is as complete as you will find anywhere and prices are very reasonable considering everything.—E. L. Barrett.

Rev. S. T. Moyle who for the past three years has been pastor of the Methodist church here, left Tuesday for Goldsboro to attend the annual Methodist Conference, which is in session there this week.

Don't forget those greatly reduced prices of our Christmas Sale which begins today. Everything cut almost in half for the holiday shopping. See our big advertisement in this paper and then come and see the many real bargains we are offering.—Mrs. J. Wells Smith.

After seeing some several months of actual service in Uncle Sam's great home guard companies, the following young men of Farmville have been mustered out and have returned home: Messrs. Walter G. Shepard, Marvin V. Jones, Arthur Joyner, Fred Williams, Jas. W. Joyner and R. A. Bynum.

No Worms in a Healthy Child
All children troubled with worms have an itching, itchy skin, which indicates poor blood, and as a result they are slow to grow and their appetites are poor. GROVE'S TASTELESS SALT TABLETS give regularly for two or three weeks will cleanse the blood, improve the appetite, and get rid of a General Strangling Tumor to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. See our bottles.

LOST—One Overland tire and rim with holder, size 32x4, on the Farmville and Kingston road Sunday evening. Reward of \$10 for its return to H. J. RASBERRY, Farmville, R. I.

IN THE EYE
DO YOUR EYES NEED CHANGING?
DR. G. L. LANG
Optometrist
CONCORD, N. C.

Will be in Farmville at Dr. Mosley's old office on Tuesday December 24th, and Saturday December 28th for the purpose of examining eyes and fitting glasses. Now if you are suffering with poor eye sight, eye pains, headaches, etc., it will be to your interest to see him on one of these dates, as he has his own grinding plant. He is in position to give you the lowest price possible.

Surprise the Family Tonight

Bake them some crispy, tasty, golden-brown biscuits made from OCCO-NEE-CHEE Self-Rising Flour. Then watch the way those goodies disappear—one, two, three, four—and every one as good as the last.

OCCO-NEE-CHEE Self-Rising Flour

Takes the Guess out of Baking and Saves you Money

With it you can make the same appetizing biscuits, waffles, muffins and cakes time after time. There's no more guessing. It has mixed with it, in the exact proportions, the very best baking powder, acids and salt. It's economical because it saves you the cost of these three materials. Buy a bag of OCCO-NEE-CHEE Self-Rising Flour today. Look for the Indian Head on the bag. At all grocers.

When you prefer to bake with plain flour buy Peerless—the best of its kind.

AUSTIN-HEATON CO., Durham, N. C.

Abundance of POTASH

For the 1919 crop

We are prepared to supply users of

ROYSTER'S FERTILIZER

With any grade of Potash goods desired

Prof. B. W. KILGORE, director N. C. Agricultural Experiment Station Says: "The lack of Potash with us has been shown especially in cotton, tobacco, and potatoes in coastal plain sections. This has been especially true of cotton and potatoes, more potash having been used on tobacco, relatively, than on these two crops."

Dr. H. W. BARRE, director of S. C. Agricultural Experiment Station Says: "I will say that a survey recently made of the cotton situation in South Carolina leads us to believe that at least 25 per cent reduction in the cotton crop has resulted this year from lack of potash. In some cases not more than half a crop has been produced on light land that is very deficient in potash. The appearance of the plants indicates that what is known as potash hunger is responsible for the decreased yield. We are, therefore, recommending that liberal amounts of potash be used in fertilizers for cotton next year. At the usual rates of application I feel that it will pay to use as much as 3 per cent potash at the present prices."

Inquire of Royster dealers. Place orders early.
