**SMOKING TOBACCO**  
**FACTS FROM THE**  
**ENCYCLOPEDIA**

**The Use of Coverings De-**  
**termines Differences in Brands**

The Encyclopaedia Britannica says  
 about the manufacture of smoking to-  
 bacco: "On the Continent and in  
 America certain smokers are employed  
 in the sort of the pipes is to improve  
 the flavor and burning qualities of the  
 leaves." Which indicates that a smoker's  
 enjoyment depends as much upon the  
 flavoring used as upon the tobacco.  
 The following is a sure guide in the mat-  
 ter of flavorings. Try this simple test  
 with several tobacco brands: Heat some  
 tobacco in your palm and briskly  
 and small. You will notice a distinct  
 difference in the fragrance of every  
 brand. The tobacco that smells best to  
 you will smoke best in your pipe, you  
 can rest assured.

Carefully read all Dunley tobacco  
 plus a disk of pure chocolate gives  
 THEIR TOBACCO a pure fragrance  
 your nose can quickly distinguish from  
 any other tobacco. Try it and see.

**LORD'S TENTH**  
**UP-TO-DATE**

The new spirit permeating the  
 air in regard to returning one-  
 tenth of the man's income to the  
 Lord was recently explained in  
 an odd but very genuine letter  
 and donation received by the  
 Mission Board of the Methodist  
 Episcopal Church, South, at  
 Nashville. The missive came  
 in a long envelope, somewhat  
 the worse for wear. It was from  
 a young soldier who wrote from  
 an army camp. The note ac-  
 companying the bills read as fol-  
 lows:

"A SPECIAL gift to Missions  
 in answer to the 'ha'ence 'Go  
 or Send' meant to be used in a  
 foreign field, preferably Korea,  
 in a place where Christ crucified  
 is preached and the Methodist  
 Episcopal Church and the M. E.  
 Church, South, are brothers in  
 the work. Not to be included in  
 the regular benevolence of  
 the Church, or in the regular ap-  
 portionment to his mission field,  
 but this is an extra amount and  
 I believe a direct answer to  
 somebody's prayer."

The young man evidently had  
 a business turn of mind for in  
 settling his financial account  
 with the Lord he appended this  
 memorandum:

"23.5"—the Lord's tenth up to  
 date.

**A PATRIOTIC**  
**BANKING SERVICE**

There is no credit in being patriotic nowadays.  
 It is plain duty.

Believing that all essential business should be  
 prosperous, booming and expanding. It is the  
 policy of this Bank to encourage and help every  
 legitimate business activity.

Whenever we can be of service to farmers or business  
 men along these lines, it shall be our patriotic pleasure to  
 assist.

WE KNOW YOUR WANTS & WANT YOUR BUSINESS

**DAVIS LIVE STOCK CO.**

We have just received a shipment of nice  
 driving and combination Horses.

Also we keep on hand a large stock of  
**SAL-VET**  
 the Great Worm Extinguisher and Condition  
 Power for Horses, Mules, Cattle and Hogs. As an  
 appetizer it has no equal, it puts horses and mules  
 in a healthy condition and gives them a glossy coat.  
 The hog raiser can't afford to do without it.

Ninety per cent of disease among hogs is caused  
 by worms, and SAL-VET is a dead shot to this  
 menace. It is a boon to cattle raisers.

You will always find us with a nice assortment  
 of horses and mules on hand for sale or exchange,  
 terms easy and courteous treatment, is our motto.

**Tax Notice!**

State and County Taxes  
 for the year 1918  
 are now due and must  
 be paid on or before  
 April 1st, 1919, or  
 costs will be added.  
 I have waited as long  
 as I possibly can and  
 hope that all who owe  
 taxes will settle with-  
 out further delay, thus  
 saving themselves an  
 extra cost and very  
 unpleasant duty.

**HOW ONE MAN CAN DO THE WORK OF FOUR OR**  
**FIVE, AND ONE TEAM THE WORK OF THREE**

Confident—I operated two of your Iron Age cotton planters on Cotton Valley Farm, Tarboro, N. C., owned by Senator Geo. A. Holderness, and I am very much pleased with the work it did. It distributed the seed evenly and at the proper depth. The fertilizer was distributed in any quantities desired.

With one man and two mules operating one of these planters I was able to do the same work that formerly required four men and six mules, and the work was done really better than when done with the one-horse implements formerly used. After a man had operated one of these machines for a day or two he was able to plant about seven acres per day.

I regard it as the most satisfactory cotton planter on the market today, and any man that plants as much as 30 acres in cotton will find it a great labor saver.

TARBORO, N. C., June 19, 1918. **L. W. SHOOK, Manager, Cotton Valley Farm**

**COTTON PLANTERS**  
**For Immediate Delivery**

The Iron Age Cotton Planter saves work and greatly improves the usual methods of planting because it opens the furrows, sows fertilizer where it cannot before, the seed, makes the soil and fertilizer and levels the soil to any desired height of seed-bed, opens a seed furrow, sows the seed, covers it, rolls the seed under next row.

By combining operations a clear saving of at least 50% a day is made—enough saved in a few days to pay for the machine. Combining all operations into one also prevents drying out of the soil, as it usually occurs when the ground is worked over several times. This machine also plants the seed immediately into a fresh, moist seed-bed, sowing a quick, healthy start for the plant.

Notice especially that the fertilizer does not come in contact with the seed, as it is thoroughly mixed with the soil and the hot seeds up before the seed is planted.

This machine can also be converted into a row maker for small crops, preparatory to sowing small seeds. A Corn Plan and Foe Attachment can also be obtained for this machine, making a tractor's planter that meets the proper demand.

Other extra attachments, such as the Peanut Seed Attachment, the Agave Attachment, the Side Dressing Attachment, the Leverage Attachment, etc., are described in the Iron Age Cotton Planter folder, free on request.
