The air service needs men and offers a number of attractive inducements to those who enlist. Those who have had experience and re-enlist are offered the following privileges:

Furlough also continuous on condition you to ride to your home at one cent a mile, with an additional five cents a mile for traveling expenses.

Free clothing, medical attention and quarters and board.

No loss of pay while sick.

Furloughs with pay.

Insurance at low rates.

Pay ranging from $30 to $121.50 a month.

Langley Field, Hampton, Va., is a recruiting center and Lieutenant Joseph Maclean is in charge.

"From all estimates received from all over Pitt county" stated Chairman N. O. Warren of the Victory loan campaign this morning to a Daily News representative, "I should say that sixty per cent of Pitt county's allotment has been subscribed. I visited a good number of the townships in the county yesterday and from all appearances Pitt county is well on the way to the goal but notwithstanding this we must keep on working hard until we have not only reached the top but gone over it."

"How about Greenville township?" He was asked. "Greenville township," he replied, "up to date has subscribed approximately $275,000 of the $330,000 allotment."

Chairman Warren is more than optomistic as to the final outcome of the Liberty loan drive in Pitt county.

GOVERNMENT WILL RELEASE CONTROL OF CABLE SYSTEM

Will Also Restore Telegraph and Telephone Lines to Former Owners.

Washington—April 29.—The government is preparing to relinquish control next month of American cable lines and to restore the telegraph and telephone systems to private ownership immediately after enactment by congress of laws necessary to safeguard the properties, Postmaster General Burleson announced today he had sent to President Wilson a recommendation that the cables be turned back to their owners, probably not later than May 15th.

An hour later the Postmaster General gave out a statement saying he would recommend that the telegraph and telephone service be returned to private owner control, however, upon financial protection, to be obtained from congress.

It was explained by Mr. Burleson that no legislation was necessary in the cable company properties.

Lessening of the traffic borne by the cables and other circumstances arising from transition to a peace basis, Mr. Burleson said, had resulted in his opinion in the situation where Government control is no longer required by the government.

FARMERS' SUPPORT URGED

All the farmers in the United States are urged to support the Victory Liberty Loan by Oliver Wilson, master of National Grange, who characterizes the loan as "our great national responsibility." Mr. Wilson's appeal follows:

"For the fifth time the government is appealing to the people for financial aid. On the four previous occasions money was needed to win the war and people of all classes liberally responded when called on the call for a Victory Liberty Loan, a loan which, now that the fight is over, is necessary to aid in finishing the great task of assuring to all peoples liberty and democracy, that our struggles and sacrifices of the last few years may not have been made in vain.

"I desire to appeal to my fellow grange members and farmers generally to cooperate in the great work we have made in the previous loans and help subscribe what you can but give the entire prosperities of your country, enabling our sacrifice soldiers and sailors and to do their part toward fulfilling the aim our great national responsibility."
