

Boon For Industries.

The great country-wide boom for good roads, given impetus by the appropriation by the recent Democratic Congress of \$200,000,000 to aid the States in highway work, is proving a great boon to industries that probably would have lagged during the period of transition from war to peace activities.

During the war, almost the entire output of the oil was used for war purposes. Now the asphalt products derived from this oil are being used on roads. Tar products that could not be procured during the war are going back into the construction and maintenance of highways. Producers of stone, gravel, sand, etc., are finding a ready market in the enormously increased demand for roadbuilding purposes.

In addition, reports reaching the bureau of Public Roads, Department of Agriculture, which is administering the Federal aid fund, show that the extensive roadbuilding program is absorbing much of the country's idle labor.

Leonard --- One-Piece Porcelain Lined

There is no satisfaction in having a refrigerator that keeps your food just half cool. It is expensive and aggravating to pay big money for ice bills and then fail to secure desired results. They are food savers, ice savers, money savers. The coldest refrigerators made—absolutely odorless and easily kept clean.

Our refrigerators are the most perfect distributors of cold air on the market. Through their patent and scientific construction every nook and corner is kept at the same low degree of temperature at the most trivial cost for ice. Call and see our line before you buy.

A Good Tire Year

You have doubtless noticed the growing preponderance of United States Tires.

Every one is asking for tires of known value and proved dependability.

And that is precisely what United States Tires represent in the minds of motorists here and everywhere.

The idea back of United States Tires—to build good tires—the best tires that can be built, is appealing to rapidly growing numbers.

We can provide you with United States Tires to meet—and meet exactly—your individual needs.
