Surprise Shower Given by Seneca Camp Fire Girls in Honor of Miss Askew.

On Wednesday of this week the girls of the Seneca Camp with their guardian, Miss Bessie Cason, gave a delightful surprise shower in honor of Miss Elsie Askew, whose marriage to Mr. James W. Joyner takes place the 11th of June.

Miss Askew heard the girls giving their yells in front of her home and going to the door, found them in raincoats, over-shoes, and carrying umbrellas, to denote the coming shower. After a few minutes conversation on the porch they went into the parlor. Underneath a tremendous umbrella several girls were sitting and the others took their places. Miss Askew was told to look for packages tied to the end of various ribbons hanging from the umbrella. She found numbers of lovely silk and linen handkerchiefs. Wrapped in one package was the following verse:

"Hope you many good wishes in this world,
May you live as happy as a Camp Fire Girl."

The girls then served delicious sandwiches, tea and candy.

It was indeed a very pleasant surprise to Miss Askew who greatly appreciated the honor shown her.

They departed at a late hour after wishing the bride elect much joy and happiness.

Grove's Tasteless Chill Tonic restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 50c.

WANTED—Pupil nurses, Park View Hospital. Requirements—references and one year's High School work or equivalent. Highest standing before State Board. Three year course, pay \$3.00 per month. Rocky Mount, N. C.

HEMSTITCHING & PEGGING

I have now a first class machine and am ready to do your work with dispatch. I guarantee satisfaction. Prices reasonable. Mrs. ANNIE PITTMAN, Box 322, Greenville, N. C.

Don't They Touch the Spot?

Hot biscuits, light as a feather and browned to a golden crispness—don't they touch the spot—make your mouth water? You can get such biscuits, muffins, waffles and cakes if you use

OCCO-NEE-CHEE Self-Rising Flour

Takes the Guess out of Baking and Saves you Money.

This flour makes baking a pleasure instead of a task. It has mixed with it, in the exact proportions, the very best baking powder, soda and salt. OCCO-NEE-CHEE Self-Rising Flour helps reduce household expenses, because it saves you the extra cost of baking powder, soda and salt. Give all the folks more good things to eat made from OCCO-NEE-CHEE Self-Rising Flour. Buy this money-saving flour today. Look for the Indian Head on the bag. At all grocers.

When you prefer to bake with plain flour buy Peerless—the best of its kind.

Breaking World's Record in an Overland

Overland Model 90 Travels Seven Days and Nights Without Stopping Motor

COVERED 4,370.1 MILES

Gear Was Sealed in High, Making Hardest Possible Test on All Car's Working Parts.

Remarkable automobile performance are not as frequent these days as they were four or five years ago; the American automobile manufacturer has attained so very high a standard of product. That may explain why so much unusual attention has been attracted during the last few days to a new world's performance record made by an Overland steel car, Model 90.

New from the factory, this Model 90 was taken from the salesrooms of the Carhart Motor Company at Oklahoma City, Okla., on March 29th, and driven to the lobby of the Lee-Huckins Hotel. There the gear shift lever was disconnected from the low, middle and reverse gears, and the gear-box was sealed in high. The motor was started, the car left the hotel and did not return for seven days; that was April 5th.

The Overland 90, driven by a party of four drivers, ran night and day, the motor never stopping for 168 consecutive hours. The drivers had no advantage of gear shifting during the two days of rain or muddy roads and the twelve to fifteen hours they spent each 24 hour day on good and bad city pavements, in the rush of traffic and on the Oklahoma roads. It has been said that if a motor car will stand up on an Oklahoma road, it will endure in any other section of the world.

In these seven days and nights, during which the gear could not be shifted from high, nor the motor stopped for carburetor adjustment or spark plug change, the Model 90 broke the world's record for a test of this kind. The speedometer carefully checked, showed that it had traveled 4,370.1 miles. That is practically one-sixth around the world, or a distance equal to a trip from New York to Los Angeles and back across the southern trail to Oklahoma City.

This remarkable non-stop performance in high gear exceeded the next best record ever made by 129.1 miles.

Another unusual record was attained by the four drivers of this Oklahoma car. The A. A. A. record for a 24-hour non-stop run—sealed-in-high run is 587 miles. That mileage was made in Chicago, several

Model 90 at end of 168-hour non-stop run, entering lobby of Lee-Huckins Hotel, Oklahoma City. Linn Mathewson, famous racing driver at wheel, beside him Dick Corhart.

makes of cars competing. On only one day of its run did the Overland fail to exceed the official A. A. A. record. That was the third day—an afternoon and night of rain with muddy going under the axles. The car then ran eight miles under the mark, but its performance was so unusually high that it averaged 62.8 miles for each day of the 168-hour run.

4,370 miles—7 days—with gear sealed in high

1. The car made a trip, exclusively in high gear, through city traffic, over country roads, with two days of steady Oklahoma downpours to contend with, at a cost of one and 1/100 cents for gasoline and oil for each of the 4,370.1 miles traveled.

2. Gasoline can be saved by proper shifting of gears under varying traffic conditions. The Model 90's record is declared to be unusually good under the no gear-shift conditions. Burning a 39 test gasoline, it averaged 23.66 miles for each gallon.

3. Only 5 1/2 gallons of oil were needed. The oil cost \$4.70.

4. Champion spark plugs were used. None was changed nor adjusted during the seven days' continuous driving.

5. Federal tires were used. There were three punctures only. Would not the man or woman who drives

content to undertake a transcontinental trip if he thought it would cause no more tire trouble than that?

Four controls were established for change of drivers and refilling with gasoline and oil. The captain of the driving team was Linn Mathewson, well known in the east and middle west as a famous racing driver on the speedway tracks. He is now the retail manager for the Carhart Motor Company at Oklahoma City.

The Oklahoma public was advised in advance of the test. The daily newspapers bulletined the progress of the run each day. In addition to that publicity, Mr. Carhart arranged to flash on the motion picture screens of the city, the car's mileage every four hours. The run was officially started by F. W. A. Vesper, the president of the National Automobile Dealers' Association.

This amazing demonstration of the economy possibilities of the lightweight American car at high speed manufacture is already being made in an increasing degree in the and adjoining territories for motor cars. It is estimated that there will be an appreciable increase of motor cars this year, the first free season after the restrictions of the war-munitions production. The local dealer for the Overland

points out that while this run has produced a very great many incidents for the Model 90, conceded to be one of the most successful of American automobiles, the production of these cars has been limited this year by the parent company in Toledo.
