Of the total \$1,839,787,989 was spent by the American expeditory forces for supplies purchased overseas.

THORNE-TYSON.

On Wednesday afternoon June 18th. at 4 o'clock Miss Minnie Lee Thorne and Mr. Carl A. Tyson were united in the holy bonds of matrimony. Rev. T. B. Sanscaster of Goldsboro, officiating.

The quiet but beautiful marriage took place at the home of the bride's parents, Mr. and Mrs. J. D. Thorne. The entire arrangement and procedure was characteristic of the bride's substantiality and good taste, simple yet effective, nature supplying the decorations which consisted of ivy, ferns, and a few pink roses.

At the appointed hour, the friends and relatives present assembled in the parlor, and the happy couple entered. The bride was dressed in a "going away" suit of dark blue, carrying a bouquet of brides roses, ferns and orange blossoms. While Mrs. J. W. Rasbery rendered the wedding march. At last the worthy groom had won the prize for which he long had waded.

Shortly after the ceremony and hearty congratulations the bridal party wended their way to the station where the bride and groom amid showers of rice, baggage loaded with old shoes etc., etc.—boarded the train for Asheville, where they will spend the first happy days of their honeymoon. Then they will return to Farmville where they expect to make their future home.

Germany is finding it difficult to get any one to go to Versailles and sign the peace treaty. Where are all the two hundred or more members of the National Assembly who voted to sign? And after all, isn't this reluctance about signing the peace treaty manufactured? Germany has no record for taking its signings seriously.

Any man who has plenty of push can get along without a pull.

Do you ever console yourself with the thought that some people look happy because ignorance is bliss?

With some people the love of wealth is more than tongue can tell. When money talks it needs no interpreter.

No, Rafael, a man should hide nothing from his wife—even if it were possible.

WHY NOT HAVE YOUR DRINKING WATER ANALYZED?

Why not have your drinking water analyzed, especially those who have typhoid fever in their homes.

As was published a few days ago that there were three principal sources or ways in which typhoid fever spreads first by water, second by personal contact and third by flies. Now it might be possible that your source of infection is through your drinking water. It is possible for you to find out free of charge whether or not your water is pure.

The germs form a case of typhoid fever, when discharged openly or in an open back privy are frequently carried by chickens, domestic animals, or even on the shoes of people themselves to or near well platforms, so as you see, that the waste water spilled around the well washes this filthy dangerous material down into the well. Again, it may be that the drainage around your well may be such that rains may wash the material along on the surface of the ground directly into the tops of wells or springs or the buckets and chains may become soiled by dirty hands and thereby pollute the water, so, naturally, with such conditions existing, it would be very easy for the water of a well or spring to become polluted.

You have often heard a man speak of his water being the best in the country, now, because your water is clear and cold is not saying that it is pure and free from germs. There is but one way to determine whether or not your water is pure and this is for you to have it analyzed, and one desiring this can confer with your health officer, who will be more than glad to try and help you in finding out where your typhoid fever is coming from and make it possible for you not to have the disease. All free of charge.

**LIVER DIDN'T ACT
DIGESTION WAS BAD**

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Opal Higginsbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Theoford's Black-Draught a standard, household remedy. Every member of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order.
