

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royce City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl...my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me...but I got no better. I got worse and worse until the misery was unbearable...I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial. J. T.

WILSON TO HAVE ANOTHER AFTER- NOON PAPER SOON

Wilson, July 3.—For the past several weeks it has been rumored around that Wilson is soon to have a new afternoon newspaper and last week a story came out from Petersburg, Va., to the effect that the paper is an assured fact, and Mr. J. L. Mayo, of Washington Greenville, will be owner. Mr. Mayo was in Wilson Wednesday afternoon and verified the report by saying: "Yes, Wilson, as a newspaper field, looks good to me and I will try the venture about the middle of September, and sooner if the contractor completes the structure for my office; the mechanical outfit has been purchased; a trained force of newspaper men will be put in the field and the paper will issue from a duplex press.

The coming publication will be the third link in the chain of newspapers Mr. Mayo is conducting in Eastern Carolina—The Washington Daily News, The Greenville Daily News and The Wilson Daily News.

NASH COUNTY MAN FOUND IN SWAMP NEAR WILSON

Wilson, July 7.—The body of Mr. B. C. Brewer, supposed to be from the Springhope section in Nash County was found near Bloomery swamp on the Raleigh road four miles west of Wilson late Saturday afternoon. When Sheriff Howard arrived on the scene the body was warm, with no evidence of foul play. Parties who met the unfortunate fellow on the road earlier in the day, say that he complained of feeling poorly.

"A scientist declares that meat eaters are more active than vegetarians." "They've got to be, to get the meat to eat."—Boston Transcript.

It is not surprising that a woman never knows her own mind when she keeps changing it so often.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, listlessness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine. It is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

It Rolled Off. A young man called on a doctor, complaining of pains in his stomach. The doctor diagnosed the case as dyspepsia, and advised the patient to go home and try a pickle. If he could keep that on his stomach he was to report to the doctor in the morning. The next day the patient returned, and when the doctor asked him if he could keep the pickle on his stomach, he replied: "I could as long as I stayed awake, but when I fell asleep it rolled off."

Colds Cause Grip and Influenza LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

WESTCOTT

The Car with a Longer Life

Even the looks last longer! Westcott is not a car that travels on its color scheme or its lines. It has good looks enough for the boulevards, but the reason its owners stay with it is a better one than that. It lasts! It has stamina of a quite remarkable sort. It performs in the hands of the demonstrator—and then it keeps on performing for (liter-

ally) years afterward in the hands of its owner-drivers. Everything about the Westcott from its carburetor to its cushions, and from its luxuries to its looks, is made right to stay right. It's not only the car with a longer life, but the car with less trouble and more comfort during every year of that long life!

Fresh Groceries

Yes, we have just received those nice new Fresh Groceries that would please you, and at living prices, consisting of both heavy and fancy Groceries, Canned Goods, candies, smoke'r goods, and Fruits in season.

Let us serve you once and we'll continue to serve you well

"Meats in Storage"

Every working day of the year 75,000,000 pounds of meat are required to supply home and export needs—and only 10 per cent of this is exported.

These facts must be kept in mind when considering the U. S. Bureau of Markets report that on June 1, 1919, there were 1,348,000,000 pounds of meats in cold storage. If the meat in storage was placed on the market it would only be 20 days' supply.

This meat is not artificially withheld from trade channels to maintain or advance prices.

Meats in storage consist of—

- 65 per cent (approximate) hams, bacon, etc., in process of curing. It takes 30 to 90 days in pickle or salt to complete the process.
- 10 per cent is frozen pork that is to be cured later in the year.
- 6 per cent is lard. This is only four-fifths of a pound per capita, and much of it will have to go to supply European needs.
- 19 per cent is frozen beef and lamb, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels, it would be only 1 1/2 lbs. per capita—a 3 days' supply.

From this it will be seen that "meats in storage" represent merely unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.
